This is the Safeguarding and Child Protection Policy and Procedures
For The Deanery CE Academy

Contents - Quick Reference Contact Guide

Introduction to safeguarding
Definition
1. Part One – Procedures
   1.1 Worried About a Pupil
   1.2 Working with parents and Carers
   1.3 Action taken by the DSL when responding to concerns about a child
   1.4 Next steps
   1.5 Case resolution
   1.6 Support for The Pupil
   1.7 Record-keeping, including transfer of records
   1.8 Worried About the Actions of An Adult Who Works/Volunteers with Pupil (including low level concerns)
2. Part Two – Specific Safeguarding Theme/Issues
   2.1 Child on Child Abuse (including harassment and violence)
   2.2 sexual abuse
   2.3 Exploitation
   2.4 Serious violence
   2.5 Honour-based abuse, including Female Genital Mutilation
   2.6 Preventing Radicalisation
   2.7 Domestic abuse
   2.8 Neglect
   2.9 Pupils at greater risk of harm
   2.10 Behaviour
   2.11 Attendance
   2.12 Pupils who are educated off-site
   2.13 Elective home education
   2.14 Intimate Care
   2.15 Pupils with medical conditions and needs, including pupils with allergies
   2.16 Children who are questioning their gender
   2.17 Children who are young carers
3. Part Three – Policy
   3.1 How is the information in this set of policy and procedures disseminated?
   3.2 How do we ensure parents/carers understand the school's role in safeguarding pupils?
   3.3 Roles and Responsibilities
   3.4 Safeguarding Supervision
   3.5 Use of school premises
   3.6 Safer Recruitment Procedures
   3.7 Online Safety
   3.8 Whistle-blowing
   3.9 Training for Adults Working in Our School
   3.10 Record Keeping
   3.11 Site safety

Appendices
   Appendix 1 – Legislation, Statutory Guidance and Non-Statutory Guidance References
   Appendix 2 – Definitions Of Abuse
   Appendix 3 – Safeguarding concern form
   Appendix 4 – Prompt sheet
   Appendix 5 – Low level concerns/ allegations incident form template
   Appendix 6 – Reading requirements for different staff roles
   Appendix 7 – Identifying support for pupils during partial school closure
   Appendix 8 – Pupil Risk assessment template

Our Academy's Commitment to Safeguarding

The Deanery CE Academy takes seriously its responsibility to protect and safeguard the welfare of the children and young people in its care. This is a whole school approach.

"The welfare of the student is paramount." (Children Act 1989.)

We are committed to anti-discriminatory practice and recognise children and families' diverse circumstances. We ensure that all children have the same protection, regardless of ethnicity, nationality, age, gender, race, economic condition, disability and religion. With regards to safeguarding we will consider our duties under the Equality Act 2010 in relation to making reasonable adjustments, non-discrimination and our Public Sector Equality Duty.

Our staff and Governors are committed to safeguarding the pupils at this school and contribute to multi-agency working to keep pupils and students safe.

Keeping Children Safe in Education defines safeguarding as:

- providing help and support to meet the needs of children as soon as problems emerge;
- protecting children from maltreatment, whether that is within or outside the home, including online;
- preventing impairment of children's mental and physical health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care;
- promoting the upbringing of children with their birth parents, or otherwise their family network through a kinship care arrangement, whenever possible and where this is in the best interests of the children;
- taking action to enable all children to have the best outcomes in line with the outcomes set out in the Children's Social Care National Framework.
- This includes harm that occurs inside or outside the home, including in foster care and residential care, as well as online.

All adults working in our school maintain an attitude of ' it could happen here'. We recognise that staff, because of their contact with and knowledge of children in their care, are well placed to identify abuse, neglect and exploitation and offer support to children in need.

This policy and set of procedures work in line with the relevant legislation, statutory guidance and take account of non- statutory guidance, all of which are listed in Appendix 1.

Under statutory guidance and legislation, action must be taken to safeguard and promote the child's welfare.

Part 1 - Procedures
1.1 What to do if you are worried about a student

See also 'What To Do If You're Worried A Child Is Being Abused'
And the national multi-agency practice standards included in 'Working Together To Safeguard Children'.

Concerns about a child's welfare can arise in many different contexts; children may be abused in a family and by those known to them. They may be abused by an adult or adults, or another child or children within their family network; this is also referred to as familial abuse.

The risk of harm may come from outside the home (ROTH); this is also referred to as extra-familial harm.
This includes:

- Exploitation by criminal and organised crime groups or individuals (such as county lines and financial exploitation)
- Serious violence
- Modern slavery and trafficking
- Online harm
- Sexual harassment and exploitation
- Teenage relationship abuse, including physical, sexual and emotional abuse and stalking
- The influences of extremism, which could lead to radicalisation

Children may experience extra-familial harm from other children and/or from adults; it may take place in school or other educational settings, within community/public spaces and/or online. Some children who experience harm, include outside the home, can be mistakenly perceived to be older than they are; this is known as adultification and is more commonly experienced by Black children but also children from minoritised backgrounds, children who are involved in the youth justice system and those who are looked after.

How a concern about a child's welfare and safety may arise

You may be worried about a pupil's welfare because you have seen or heard something. You may have noticed a change in their behaviour. You may have seen a mark on a pupil which worries you. You may be concerned about the safety or welfare of a pupil who is absent from school. You may not have received a direct disclosure, but you may have over-heard a conversation which worries you. All staff should be aware that children may not feel ready or know how to tell someone they are being abused, and/or they may not recognise their experiences as harmful.
This should not prevent you from having a professional curiosity and speaking to the DSL if you have concerns.

Where a pupil comes to speak to you directly and tells you information which may suggest they are at risk of abuse, neglect or exploitation, this is known as a disclosure. If a pupil discloses to you, you should:

- **Reassure** the pupil that they being taken seriously and that they will be supported and kept safe
- **Listen** to what the pupil is saying, without displaying any signs of shock or disbelief
- **Allow** the pupil to talk freely without interrupting
- **Reassure** the pupil but do not make promises about keeping the information a secret
- **Reassure** the pupil that this is not their fault
- **Ask** questions only if you need to clarify, take care not to put words in their mouth by asking leading questions
- **Explain** to the pupil that they have done the right thing by telling you and explain what you will do next, in line with the procedures outlined below.

When concerned about the welfare of a child staff should always:

1.) act in the best interests of the child
2.) act on the concerns immediately; do not delay

You have a responsibility to follow the steps below:

Step 1

- Do you need to take immediate action to secure the safety of the student?
- If you are concerned that a student might be in immediate danger or at risk of significant harm, you must act **immediately** and before the end of a school day. A decision may need to be taken about whether it is safe for the student to return home.
- Report your concerns directly to a **member of the safeguarding team**, as soon as you are able. Where possible, this should be done 'face to face'.
  In the first instance our Designated Safeguarding Lead Naomi Luckman, 01793 236611.
  If the DSL is unavailable, please report to our Deputy DSL/s: Kelly Matthews, Laura Connors, Sarah Parry, Fiona Woodfield or Adele Buckley on 01793 236611.
- If no one from your safeguarding team is available, speak to the most senior member of staff on site. If this is you, please refer to 'Role of DSL'. You may also take advice from local authority social care. If this action is taken, this should be shared with the DSL as soon as practicably possible.
- If your concern relates to child-on-child abuse, refer to Part 2 of this document and Part 5 of KCSIE 26.

Step 2

- Record your concerns using CPOMS as soon as possible. Record the full date and time, location, your name and role and keep your record as factual as possible.
- A hard copy of an incident form in the event of being unable to record onto CPOMS at that time, can be found in the Academy Workrooms, and in Appendix 3 at the back of this policy.
- Use full names, not initials as we need to be able to identify who individuals are.
- Use the student's own words where applicable and enclose any direct quotes in quotation marks.
- Include what it is you have seen/heard/noticed which concerns you. Has the student communicated this? Verbally? Behaviour?
- Ensure your record is clear and factual. Is there any context you need to be aware of? Is this the first concern or have you had other concerns? Include any actions you have already taken.

- If marks or injuries have been observed, record these on a body map (see Appendix 3). Do not take photographs.
- If a safeguarding/child protection concern/incident form is unavailable, handwritten notes can be made on a piece of paper. (This must be retained, even if the notes are subsequently written up / typed up onto a form).

  Remember that records can be requested and accessed by parents/carers and may also be used in multi-agency meetings and in criminal proceedings. Records should be clear, comprehensive and professionally written.

Step 3

- Include whether you have spoken to parents/carers about the concern/incident. Remember, you may need to seek advice from a member of the safeguarding team if you are unsure about whether speaking to the parent may increase the risk to the child. If the parent is the alleged perpetrator, you must always seek advice from the safeguarding team before speaking to the parent/carer.
- The original concern form should be passed, in person, to the DSL/Deputy DSL.
- Information should always be kept secure and confidential.
- Copies should not be retained by you.

Step 4

- You should receive feedback about what action, if any is being taken in response to your concern. A recommended timescale for this is within 24 hours. **If you do not receive feedback or you feel that the situation is not improving for the student, you have a duty to follow up your concern with the DSL / Deputy DSL.** See section on Whistle-blowing.

Additional consideration needs to be given to students with communication difficulties and for those whose preferred language is not English. It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

1.2 Working with parents and carers

In line with 'Working Together to Safeguard Children' we recognise the importance of working in partnership with parents and carers as far as possible. Whilst collaborative relationships with parents and carers are important, we also recognise that the wishes and feelings of our students play a pivotal role in decision-making. Concerns about the welfare or safety of students will be discussed with the parent/carer, unless, having reviewed the information of concern, it is the view of the safeguarding team that this may increase the risk to the student. Following consultation with the school's safeguarding team, it may be a member of the safeguarding team themselves who makes contact with home. Our first priority is the student's welfare and therefore there may be occasions when concerns about a student means that we have to consult other agencies before we contact the parent/carer.

If a referral is to be made to Children's Social Care, the parent/carer will be contacted by a member of the academy's safeguarding team and the information within the referral will be shared. There are some occasions when the academy will be advised not to share the content of the referral with the parent/ carer as to do so may increase the risk of harm to the student.

Where reports are written about students as part of the child protection process, the academy will provide opportunity prior to the conference to share the content with parents and carers.

1.3 Action taken by the DSL (or Deputy DSL) when responding to concerns about a child - the Role of the Designated Safeguarding Lead and Deputy DSL/s in Our Academy

The DSL takes responsibility for safeguarding and online safety.

Our Designated Safeguarding Lead is Naomi Luckman, who works in line with the requirements of the role, as set out in Annex B of Keeping Children Safe in Education 2026. Our Deputy DSLs are Kelly Matthews, Laura Connors, Sarah Parry, Fiona Woodfield and Adele Buckley and are available in the absence of the DSL.

Where possible, every effort is made to ensure that decisions are not made in isolation; next steps about actions and decision-making are discussed by the members of the safeguarding team together.

The members of our safeguarding team work in partnership with a range of other agencies, including Local Partners, to keep students safe. This includes information-sharing, provision of reports and attendance at multi-agency meetings including child protection conferences and core group meetings.

- The DSL is a senior member of staff who undertakes lead responsibility for safeguarding and child protection within the setting.
- The DSL (and any deputies) have undertaken DSL training (SBC led or NSPCC) to ensure they are compliant with the SSPs requirement for DSLs.
- The DSL works with the Head Teacher, and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that learners in need are experiencing or have experienced, and identifying the impact that these issues might be having on learner's attendance, engagement and achievement at school or college.
- Activities include the management of work undertaken by any Deputy DSLs.
- Manages early identification of vulnerability of learners and their families from staff through cause for concerns or notifications. This will ensure detailed, accurate, secure written records of concerns and referrals.
- Manages referrals to local safeguarding partners where learners with additional needs have been identified. These can include those:
    - who need a social worker and may be experiencing abuse or neglect.
    - requiring mental health support.
    - who may benefit from early help/family help.
    - where there is a radicalisation concern.
    - where a crime may have been committed.

The DSL will also:

- Work with others – acting as a point of contact for outside agencies about safeguarding.
- Support and advise other staff in making referrals to other agencies.

- When required, liaise with the case manager and the Local Authority Designated Officer (LADO) Service in relation to child protection cases which concern a staff member.
- Coordinate regular safeguarding training and updates and raise awareness and understanding to the school community around policies and practice in relation to safeguarding.
- Help promote educational outcomes by sharing information about vulnerable learners with relevant staff. This includes ensuring that staff:
    - know who these children are,
    - understand their academic progress and attainment and maintain a culture of high aspirations for this cohort.
    - Are supported to identify the challenges that children in this group might face.
    - Provide additional academic support or make reasonable adjustments to help children who have **or have had** a social worker to reach their potential.
- Ensure the secure transfer of the Child Protection File when a child moves to a new setting-within 5 days for in year transfer or the first 5 days of the start of a new term.
- Arrange adequate and appropriate cover arrangements for any out of hours/out of term activities, e.g. attendance at Strategy and Initial Child Protection Conferences out of term time and share out of term time contact details with the Local Authority
- Work with the SLT member who has lead responsibility filtering and monitoring systems to monitor and ensure their effectiveness and know how to escalate concerns when identified. Support the Filtering and Monitoring lead in conducting an annual review on filtering and monitoring which is presented to governors.
- Support the role and duties of the named lead for health, safety and site security.

What happens once a concern /disclosure has been reported to a member of the safeguarding team?

The DSL or Deputy DSL will follow the steps below to respond appropriately to the concern and safeguard the student:

Step 1

- If there is concern that the student is in immediate danger contact Children's Social Care (Contact Swindon) on 01793 464646 immediately. You may also consider contacting the police on 999. **Go to section 'Making a referral to Social Care' (page 12)**

Step 2

- Contact the parent/s or carer/s of the student concerned, if this has not already been done. You may wish to take advice from Children's Social Care before contacting the parent/carer. If, having sought advice, you believe that sharing this information may increase the risk of harm to the student do not share with parents at this stage. You must document your decision-making here, if the decision is made not to share information with parents/carers. In the majority of cases informing the parents/carers of the concern / disclosure which has been reported will not increase risk. Ask for any additional information from the parent/carer if applicable.
- Ensure that the parent/carer understands that a record will be kept by the academy.

Step 3

- Refer to the local authority threshold document *https://swindonchildcare.proceduresonline.com/files/right_help_time.pdf* to support decision-making about what action is now required.
- What are the risks to the child? Are they familial; posed by someone in the child's family? Are they extra-familial; posed by adults or peers outside of the home? (See Part 1 of KCSIE for further information)
- If there is reasonable cause to suspect a child is suffering or likely to suffer significant, a referral harm to Children's Social Care must be made immediately and without delay.
- A referral will also be required if there is evidence to indicate that the threshold for Child in Need has been met. A child in need is defined as a child who is unlikely to reach or maintain a satisfactory level of health or development, or their health or development will be significantly impaired without the provision of services, or the child is disabled.
  See below for further guidance on making a referral to Children's Social Care

- If the concern does not require immediate contact with Children's Social Care, consider this latest concern within the context of any wider concerns / disclosures. This may mean further discussion with the student's tutor and pastoral team and /or referring back to safeguarding or child protection records if they exist.

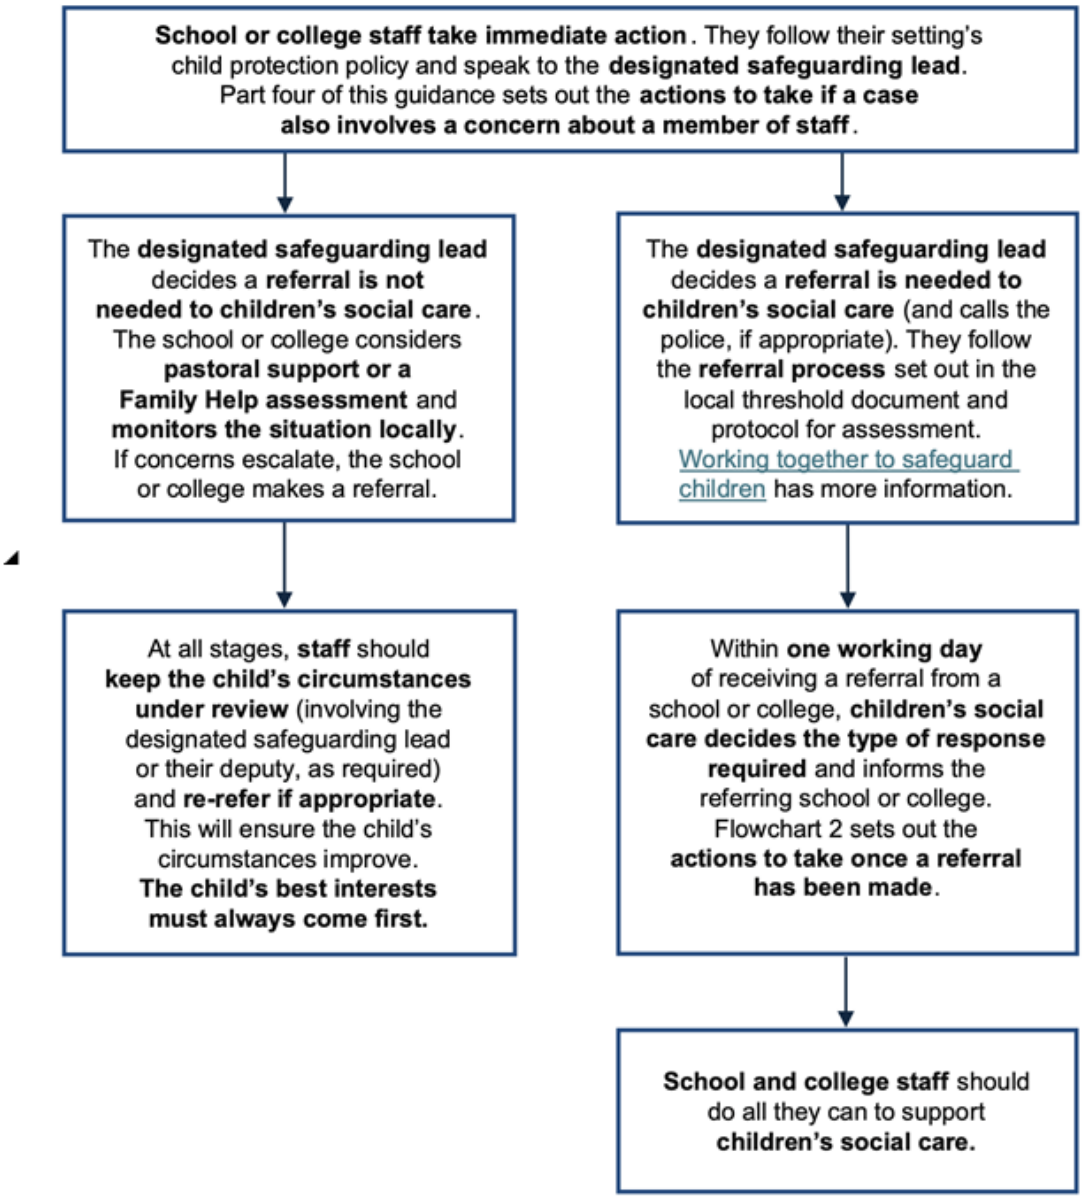
Step 4

- Ensure that the member of staff reporting the initial concern has received feedback about actions and outcomes (if applicable).

Step 5

- The DSL should keep written records of all concerns, discussions and decisions, including the rationale for those decisions. This should include instances where referrals were or were not made to another agency, such as Children's social care or the prevent programme.

Flowchart 1: actions taken by a school or college when there are concerns about a child



Flowchart taken from 'Keeping Children Safe In Education'

1.4 Next steps - Making a Referral to Children's Social Care for support at Child in Need or Child Protection level

See also Part 2 KCSIE and Working Together To Safeguard Children

Where there is reasonable cause to suspect

1.) a child is suffering or likely to suffer significant harm (Child Protection under section 47 of the Children Act 1989)

or

2.) a child is unlikely to achieve or maintain a reasonable level of health or development or whose health and development is likely to be significantly or further impaired, without the provision of services (Child in Need under section 17 of the Children Act 1989),

a referral to Children's Social Care will be made.

In the first instance, this should be made by telephone 01793 464646. It is useful to have any safeguarding/child protection records to hand. Following a telephone referral, you will be required to submit a written referral within 24 hours.

Points to consider when completing a referral:

- Where possible include the 'voice' of the child, including any behaviours displayed which may indicate an unmet need.
- Provide a picture of what life is like for the student. What is their 'lived experience'? This could include the Three Houses exercise.
- Is the risk posed familial or extra-familial?
- From the academy's perspective, what are your worries for this child/young person?
- Are there any safety factors? Are there any times when the academy is less worried?
- A family help plan is not a prerequisite for a referral but where one has been undertaken it should be used if a referral is made to children's social care.

- There are a number of additional 'frameworks' which can also be considered at this stage e.g., the Hackett Continuum, the Brook Tool, Neglect Framework, Graded Care Profile.

The completed referral will be shared with parents/carers, who will be asked to provide consent to the information being shared with social care. If consent is not given, or the referrer deems that it would place the student at risk to share the referral prior to reporting to social care, the information can still be shared where there is good reason to do so.
See also Information-sharing guidance.

Outcome of the referral

Members of the school's safeguarding team work in line with the statutory guidance included in Chapter 3 of 'Working Together to Safeguard Children' and the local multi-agency safeguarding procedures, which outline next steps and decision-making following a referral to Children's social care.

Whenever there is reasonable cause to suspect that a child is suffering or is likely to suffer significant harm, a strategy discussion should take place involving Children's social care, the police and health. The school should also be represented at this meeting.

Undertaking a Family Health Assessment

See also part 1 KCSIE And Working Together to Safeguard Children

All staff should be prepared to identify pupils who may benefit from Family Help. Family Help means providing support as soon as a problem emerges at any point in a child's life.

Effective early help relies upon local agencies, including education working together to:

- identify children and families who would benefit from family help;
- undertake an assessment of the need for family help; and
- provide targeted family help services to address the assessed needs of a pupil and their family which focuses on activity to significantly improve the outcomes for the pupil.

How are children and families identified for family help?

In our school staff are alert to the fact that early signs of abuse and/or neglect can be indicators that support is needed. Any child may benefit from family help, but staff should be particularly alerted to a child who:

- is disabled or has certain health conditions and has specific additional needs;
- Has special educational needs (whether or not they have a statutory education, health and care plan);
- is suffering from mental ill health
- is a young carer
- is bereaved
- shows signs of being drawn into anti-social or criminal behaviour, including being affected by gangs and county lines and organised crime groups and/or serious violence, including knife crime
- is frequently missing from education, care or home
- is at risk of modern slavery, trafficking, sexual or criminal exploitation
- is at risk of being radicalised
- is viewing problematic and/or inappropriate online content (for example linked to violence), or developing inappropriate relationships online
- has a family member in prison/custody or is affected by a parent offending or a parent/carer in custody
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- is mis-using drugs or alcohol themselves
- has returned to family home from care
- is at risk of honour-based violence such as female genital mutilation or forced marriage
- is a privately fostered child
- is missing education, or persistently absent from school, or not in receipt of full-time education
- has been repeatedly removed from the classroom, experienced multiple suspensions, is on a part-time timetable, is at risk of, or has been permanently excluded from school and in an alternative provision or pupil referral unit
- is pregnant and/or is a parent themselves
- has exhibited early signs of abusive, violent and/or harmful behaviour

What support is provided as part of the Family Help offer?

Family Help can include family and parenting programmes, assistance with school attendance, assistance with health issues, including mental health, help with problems relating to domestic abuse. Family Help also includes services to support with emerging problems linked to serious violence, sexual harassment and violence and teenage relationship abuse.

Family help means providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the teenage years. In the first instance, staff who consider that a pupil may benefit from Family help should discuss this with the School's DSL, DDSL or a member of the Pastoral Team. If early help is appropriate, the school will generally lead on liaising with relevant agencies and setting up inter-agency assessment as appropriate.
Staff may be required to support other agencies and professionals in a family help assessment. The DSL will support staff in liaising with external agencies and professionals in an inter-agency assessment, as appropriate.

Some of the support we can offer as part of Family help is:
School counsellor, School nurse, BEU mental health support, PCSO intervention, support from Inclusion and the SEND department where appropriate, intervention groups, including parenting support, 1 to 1 support with our Pastoral team, School of Solutions (SOS) intervention or SOS Alternative provision, referrals to outside agencies and homework club. Each case is looked at on an individual basis to ensure the right level of support is put in place.

How does the Family Help process work?

Where a child and family would benefit from targeted support because of multiple and/or complex needs, the school will work together with other agencies to contribute to a Family Help Assessment. Further details of what should be included in this assessment are included in Chapter 3 of Working Together to Safeguard Children.

Universal services and community-based early help

Universal services and community-based early help is support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse. Community-based early help is provided by services such as education, youth services, health visitors and mental health services as well as support available through Swindon Family Safeguarding.

1.5 Case Resolution

<u>In school</u>

- If a member of staff does not see any improvement having reported a concern about a pupil, they have a duty to re-report to a member of the safeguarding team.
- If it is felt that the safeguarding team is not taking their concern seriously then this must be escalated to the Headteacher or the Chair of the Interim Board (if the Head teacher is a member of the safeguarding team). See also section 'Whistle-blowing'.

<u>External</u>

- If a member of the safeguarding team feels a decision made by another professional in another agency is not in the student's best interests, they must discuss this further. In the first instance, this takes place directly with the professional involved to allow opportunity for decision-making to be discussed and clarified. (Pre-escalation)
- If pre-escalation fails to resolve the issues identified, the member of the safeguarding team should escalate within their own organisation (to the Head teacher if they are not in this role). The issue is then escalated to the professional's line-manager. (Escalation/Case Resolution) in line with our local safeguarding partnership's case resolution policy. When enacting this policy, we will ensure we make clear our intention to escalate in all communications with external agencies involved. https://safeguardingpartnership.swindon.gov.uk/downloads/file/1629/swindon_safeguarding_partnership_adult_and_children_resolution_policy_escalation_process
- At all stages records should be kept.
- The Headteacher will ensure that the intention to instigate case resolution procedures is made explicit and in writing.

1.6 Support for Students

Staff are in a position to identify concerns early, provide help for students, promote students' welfare and prevent concerns from escalating.
Training is provided for staff to ensure they have an understanding of how children's experiences can impact on their mental health, behaviour, attendance and progress in school.
To promote students' welfare, we provide the following support: ELSA mentoring support, external counselling, pastoral support, safe spaces inclusive of the Calming Corner and trusted adults.

1.7 Record-Keeping

Any member of staff, visitor or volunteer who has a concern about a student's welfare or receives a disclosure of abuse will make an accurate record, **as soon as possible**, noting what was said or seen, putting the event into context and giving the full date, time and location. This information must be recorded on CPOMS.

If injuries or marks have been observed which cause concern, theses should be recorded on a body map outline, giving an indication of size and whether there is a defined shape to the mark or injury. Photographs should not be taken.

Any handwritten notes (not captured on the Safeguarding form) will be retained, even if they are subsequently written up.

Staff are encouraged to also record any action they have taken, including whether they have reported the concern directly (face to face') to a member of the safeguarding team, as well as recording on CPOMs.

Records of concern or disclosures will be kept (even if there is no need to make a referral immediately). These records are stored confidentially. They do not form part of the pupil's educational records and are stored separately. Confidentiality will be maintained and information relating to individual pupil/families shared with staff on a need-to-know basis.

Chronologies

Individual student chronologies will be kept up to date and reviewed at regular intervals. All 'significant events' are captured on this chronology, including attendance at meetings, phone calls and emails in relation to safeguarding and/or child protection matters. This chronology also captures headline information about what action has been taken and the outcome of this action. The outcome should focus, where possible, on the student and indicate whether the situation is improving.

Case file review

Safeguarding and child protection files for individual students should be re-visited regularly to ensure any risk is being reduced and appropriate action taken. It is good practice for this review to take place on a termly basis.
To ensure that all files are reviewed, an overview of all students (where there are safeguarding child protection concerns), is kept up to date. This is a 'live' document and reflects the numbers of students subject to child protection, child in need or those receiving early help support.

Transfer of records when a student moves to a new school

When a student moves schools, safeguarding/child protection original documentation will be passed as soon as possible (within 5 days of start date), and confidentially to the receiving school, separate from academic records. Where possible, the DSL will arrange to meet the DSL of the new school to discuss the documentation. The receiving school is asked to sign to confirm receipt of the information and this confirmation is stored on file. Where schools use CPOMS, their electronic files will be transferred when a student starts with them.

Where information indicates a risk to others and/or the individual pupil, for example where a pupil has previously carried a knife, it is incumbent on the receiving school to assess risk, and put a safety and support plan in place accordingly.

Record retention

The school will retain records for students:

- Who have been withdrawn to be home-schooled, if there is existing safeguarding/child protection file or concerns.
- Where they are the last educational provider for that child.

Further guidance on the retention of records can also be found in our Data protection policy.

1.8 Worried about the actions of an adult who works/volunteers with children

See also Part 4 KCSIE

You may be worried about the actions of an adult who is working/volunteering with children. The adult may be:

- an employee of the academy
- a trainee teacher
- an adult working with the academy, employed by a third party (including staff working in after school clubs/lettings and in alternative and enhanced provision)
- a volunteer

You may have seen or heard something which makes you feel uncomfortable.

You may be concerned that the adult's actions are contravening the Trust's staff code of conduct.

You may be aware of a situation the adult is involved in, outside of academy, which suggests they may not be safe to work/volunteer with children and young people.

All concerns must be reported following the steps below:

Step 1

- If you are concerned that a student might be in immediate danger or at risk of significant harm you must act immediately. Do you need to take immediate action to secure the safety of the student?
- Report your concerns directly to the Headteacher (currently, Executive Principal Jon Young) as soon as possible –*on 01793 236611.*
- If the Headteacher is not contactable, report to the most senior member of staff on site, or if due to a situation where there is a conflict of interest in reporting the matter to the Headteacher. report to the most senior member of staff on site.
- If your concerns are about the Headteacher, report to the CEO of the Trust, Gemma Piper.

Step 2

- Record your concerns using the school's 'Concern/Disclosure' form (see Appendix 5), as soon as possible
- **Staff should NOT record allegations or concerns about adults working or volunteering with students on electronic student record systems (CPOMS).**
- Remember to record the full date and time, your name and role and keep your record as factual as possible.
- If a concern/disclosure form is unavailable, handwritten notes can be made on a piece of paper. (This must be retained, even if the notes are subsequently written up onto a form).

Step 3

- Record what action you are taking, for example, record the name of the member of staff you have reported to.
- The original concern form should be passed to the Headteacher or the Trust CEO, if the concern/allegation involves the Headteacher. Copies should not be retained by you.
- If the person you have reported the concern to does not take your concern seriously, you must escalate your concern to the CEO of TPAT. Ultimately, anyone can report a safeguarding concern about an adult working with children into the local authority, asking to speak to the Local Authority Designated Officer (LADO). See Quick Reference Contact Guide on page 3.

The role of the Headteacher when dealing with low level concerns or allegations involving adults who work/volunteer with children

- The Headteacher will consider the information in the report and initial consideration will be given as to whether this indicates that the person would pose a risk of harm if they continue to work in close or regular contact with children in their present position or any capacity.
  Is there evidence to suggest that the harms threshold has been met?
- The person has behaved in a way that has harmed a child, or may have harmed a child
- The person has possibly committed a criminal offence against or related to a child
- The person has behaved towards a child or children in a way that indicates that he/she may pose a risk of harm to children

- Behaved or may have behaved in a way that indicates they may not be suitable to work with children

Criteria listed above taken from Part 4 of 'Keeping Children Safe in Education'

Allegations that meet the harms threshold
See also further guidance in detail included in part 4 KCSIE

- If initial information in the report suggests that the threshold has been met, the Headteacher will follow Section 1 of Part 4 of KCSIE – '*Allegations that meet the harms threshold'*.

- Where the allegation relates to an adult externally employed/contracted/in training, the Headteacher will inform the employer/training provider of the allegation. The school shares safeguarding responsibilities with the employer/training provider. The school remains responsible for gathering facts and managing the safeguarding process whilst working closely with the employer/training provider.

- Step 1: The Headteacher will contact the LADO immediately, before commencing any form of investigation. Schools are permitted to conduct basic enquiries, (see part 4 of KCSIE) to establish the facts, however care should be taken not to jeopardise any future police investigation.

- Step 2:
  The LADO will decide on further action:
- strategy discussion/meeting, or
- advice and follow up from LADO, or
- no further action by the LADO after initial consideration and closure

If further action is agreed, the LADO will agree with the police whether or not a strategy discussion/ meeting needs to take place. If it is agreed that the threshold has not been met for a strategy discussion/meeting, an allegations management meeting may be held. The main purpose of this is to ensure the safety of the children and ensure the process is concluded promptly, ensuring the accused staff member has adequate support.

At the conclusion of investigations, an outcome will be agreed by the LADO:

- Substantiated: there is sufficient evidence to prove the allegation
- Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation
- Malicious: there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive or cause harm to the person subject of the allegation
- False: there is sufficient evidence to disprove the allegation
- Unfounded: to reflect cases where there is no evidence or proper basis which supports the allegation being made

A record of the outcome of all allegations involving the LADO is held.

At the end of the allegation process if a member of staff or volunteer is removed from their position for causing harm or posing a risk of harm or they leave whilst investigations are on-going, the school has a duty to inform the Disclosure and Barring Service via a referral.

Where a decision is made to dismiss or cease to use **the services of a teacher** because of serious misconduct, or they might have been dismissed or their services ceased had they not left first, the school will consider whether to refer to the Teaching Regulations Agency.

We understand, as a school, that if we know or have reason to believe that an individual is barred, we are committing an offence if we allow the individual to carry out any form of regulated activity.

Concerns that do not meet the harm threshold

Creating an environment with a strong culture of safeguarding, where students are kept safe involves ensuring that **all** concerns about adults who work/volunteer with children are shared responsibly, with the right person, recorded and dealt with appropriately.

A low-level concern may be a sense of unease, a nagging doubt, or noticing that an adult appears to be contravening the school's staff /visitor code of conduct. It may include 'over-friendliness with a student, having a favourite student, engaging with a student on a one-to-one basis in a secluded area of the school.

Staff, volunteers and external visitors must share **all concerns which arise**, even if they do not believe the harm threshold has been met. Just because a concern does not meet the harm threshold does **not** mean it is insignificant.

<u>Possible actions</u>

- The Headteacher may still consider contacting the LADO for further guidance if required.
- The Headteacher will consider what action needs to be taken to address the low-level concern/s, which may include additional staff training, mentoring and/or a verbal or written warning. Advice may be sought from the school's HR provider here.
- It is important that all low-level concerns are recorded, to identify whether a pattern of worrying behaviour is emerging. This chronology of concerns may trigger a referral into the LADO where a pattern emerges.

<u>Code of conduct</u>

Staff, volunteers and external visitors are provided with our school's code of conduct and sign to confirm that they have read and understand expectations about their behaviour. Ensuring that this process is followed robustly helps keep children safe.

Unprofessional behaviour which breaches our staff code of conduct is addressed at an early stage and the individual supported.

Supporting the welfare of the child

Where a child has been harmed, there is immediate risk of harm or the situation is an emergency contact will be made with Children's Social Care and as appropriate the Police. As a school, we will support students.

Supporting the welfare of the adult at the centre of the concern/allegation

Employers have a duty of care for their employees. The Headteacher must put in place support for the adult at the centre of the concern/allegation.

Record-keeping

All low-level concerns and allegations about adults who are working or volunteering with children should be recorded on the schools 'Concerns / Allegations Record For Adults working or volunteering with children/young people' (see Appendix 5).

Records are stored confidentially and securely on CPOMS Staff Safe and comply with the data Protection Act 2018, the Data (Use and Access) Act 2025 and the UK GDPR Act.

Allegations which meet the threshold

The following information is kept on file:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up
- Details of action taken, decisions reached and the final outcome
- A declaration on whether the information will be referred to in any future reference

Schools have an obligation to preserve records which contain information about allegations of sexual abuse for the Independent Inquiry into Child Sexual Abuse (IICSA) for the term of the enquiry. All other records should be retained at least until the accused has reached normal pension age or a period of 10 years from the date of the allegation if that is longer. Further information can be found on the ICO website.

Low level concerns

The following information should be recorded:

- Details of the concern and the context in which the concern arose
- Action taken
- If advice was taken as to whether the LADO was contacted for guidance

This information is retained until the individual leaves employment/volunteering role with the school.

Where a pattern of concerns emerges, these are recorded on a chronology. These are reviewed to decide whether the pattern of behaviour moves to concern to meeting the harms threshold, in which case it will be referred to the LADO.

Following an allegation or low-level concern

Consideration will be given as to whether there are areas of the schools safeguarding practice and procedure or wider cultural issues within the school which need addressing following an allegation or low-level concern. Where appropriate, policies will be revised or additional training provided to minimise the risk of this happening again.

Part 2: Specific Safeguarding Themes

See also Annex A of KCSIE

Knowing what to look for is vital for the early identification of abuse, neglect and specific safeguarding issues such as exploitation.
If you are at all unsure you should **always** speak to the safeguarding team.

2.1 Child on Child Abuse (including harassment and violence)

See also Part 5 KCSIE and Annex A

We recognise that children are capable of abusing other children. This can happen both inside and outside of school and online. Concerns should be reported whether these are thought to have taken place on school site or off site. As a school we are alert to times of the day when pupils may be at greatest risk e.g. at the end of the school day.

A child may not find it easy to report child on child abuse and we recognise that they might show signs or act in ways that they hope an adult will notice, including a change in behaviour. Even if there are no reported cases of child-on-child abuse, we recognise that abuse may still be taking place but not being reported. We understand that the student who is perpetrating the abuse may also be at risk of harm and we will make every effort to ensure that the perpetrator is supported appropriately.

Procedures in place to minimise the risk

The school's ethos encourages students to raise concerns with staff, knowing that they will be listened to, believed and valued. Signposts are on the academy website, within the student noticeboard and referenced to regularly through assemblies and student sessions within tutor times.

Systems are in place for students to confidently report abuse, knowing their concerns will be taken seriously. All members of staff promote themselves as trusted adults to support all students who make a disclosure or have a safeguarding concern. Students have regular access to the non-teaching Pastoral team.

- We deliver a Relationships and Sex Education and Health Education (Secondary) curriculum in line with the DfE statutory guidance. This develops students understanding of healthy relationships, acceptable behaviour and keeping themselves safe. This curriculum is broad, balanced and covers a range of safeguarding themes. It is progressive across the year groups.
- Staff receive regular training to ensure they know the signs and indicators which may suggest a student is at risk of child-on-child abuse and understand their role and responsibilities to report to the safeguarding team as soon as possible.
- Our school has a zero-tolerance approach to abuse and regular staff training ensures that incidents of child-on-child abuse are never passed off as ‘banter’, part of growing up or ‘boys being boys’. All incidents of child-on-child abuse are reported to the safeguarding team. Downplaying these behaviours can lead to a culture of unacceptable behaviour, misogyny and an unsafe environment where children accept this as normal and do not come forward to report.
- All incidents of child-on-child abuse are reported to the safeguarding team.
- The school has a behaviour policy in place which is regularly reviewed and sets out the expectations about appropriate behaviour. Our policy makes clear that child on child abuse is not acceptable, will never be tolerated and is not an inevitable part of growing up.
- Following an incident where sexually harmful behaviour has been identified, the safeguarding team will ensure that risk to siblings is considered.

Set out below are the different types of child-on-child abuse and the systems in place to respond to these.

In line with the guidance set out in "Suspension and Permanent Exclusion from Maintained Schools, Academies and Pupil Referral Units in England" (DfE, effective from 26 July 2026, p.17), the school may, in exceptional safeguarding circumstances, temporarily prevent a pupil from attending the school site where this is necessary to protect their safety or the safety of others. This is a safeguarding measure, not a disciplinary suspension or exclusion, and will be implemented only following consultation with the Designated Safeguarding Lead (DSL) and where no suitable alternative arrangements can safely be made. Parents/carers will be informed without delay, and appropriate educational provision will be considered in line with statutory guidance.

1. **Bullying (including Cyberbullying, discriminatory behaviour, including racism, faith-targeted abuse, and other prejudice-based incidents))**

There is no legal definition of bullying. However, it's usually defined as behaviour that is:

- Repeated (although not always)
- intended to hurt someone either physically or emotionally
- often aimed at certain groups, for example, because of race, religion, gender or sexual orientation

This can include:

- **physical assault and harm** – hitting, kicking, pushing people around, spitting or taking, damaging, hiding possessions or the threat of harm with a weapon.
  - **Verbal** - name-calling, taunting, teasing, insulting, making threats or demanding money
  - **Exclusionary behaviour**: intimidating, isolating or excluding a person from a group
  - **Cyberbullying**: bullying that takes place using technology. This may include bullying through the use of mobile electronic devices, social media, gaming sites and chat rooms on gaming platforms.
  - **Racist and Religious Bullying**: A range of hurtful behaviour, both physical and psychological, that makes a person feel unwelcome, marginalised, excluded, powerless or worthless because of their colour, ethnicity, culture, faith community, national origin or national status;
  - **Sexist and Transphobic Bullying**: includes any behaviour, whether physical or non- physical, where sexuality is used as a weapon by boys or girls; sexual insults, sexual language/gestures, name calling, unwanted physical contact, sexual violence or harassment.
  - **Harmful sexual behaviour, sexual violence and sexual harassment:** which may include misogyny/misandry.
  - **Abuse in intimate personal relationships** between peers (teenage relationship abuse)
  - **Consensual and non-consensual** making or sharing of nudes and semi nudes, including those generated using AI
  - **Upskirting:** which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm.
  - **Initiation/hazing type violence and rituals.**
  - **Homophobic Bullying**: targets someone because of their sexual orientation (or perceived sexual orientation)
  - **Disablist Bullying**: targets a young person based on their disability, special needs or health needs. This can include manipulative bullying where a perpetrator forces the victim to act in a certain way or exploiting a certain aspect of the victim's disability.

Responding to concerns about bullying

Students who attend our school have the right to learn in safety. We do not tolerate bullying of any kind and will challenge derogatory language and behaviour towards others, whether this is an isolated incident or a pattern of behaviours.

- Bullying incidents within the academy are dealt with decisively and swiftly

- Students responsible will be sanctioned accordingly and layers of support implemented to support all students who have been affected.

We minimise the risk of child-on-child abuse by providing:

- a relevant, effective curriculum, that helps children to develop their understanding of acceptable behaviours, healthy relationships and keeping themselves safe. The curriculum is updated to reflect changes in legislation, and the mandatory teaching of Relationship Education, Relationship and Sex Education and Health Education,
- established/publicised systems for children to raise concerns with staff, knowing they will be listened to, supported and valued, and that the issues they raise will be taken seriously
- training to all staff so they understand that child-on-child abuse can and does happen and are trained to be alert to any behaviours that could cause concern,
- a clear procedure for all staff to report all incidents as a safeguarding concern to the school DSL/ Deputy DSL.

2.1.2 Child on Child Sexual abuse

See also part 5 of KCSIE

This can include:

- Harmful sexual behaviour, sexual violence and sexual harassment - Sexual violence and sexual harassment can occur between two students of **any age and sex,** from Primary, into Secondary and into college. Harmful sexual behaviour exists on a continuum and can escalate into sexual harassment and sexual violence. The early identification of harmful sexual behaviours, for example misogynistic comments, is vital in preventing this escalation and supporting those involved.

We recognise that 'it could happen here'. It can occur through a group of students sexually assaulting or sexually harassing a single student or group of students. Harmful sexual behaviour, sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and 'face to face' (both physically and verbally) and are never acceptable.

Abuse will never be tolerated or passed off as "banter" or "part of growing up". All staff at The Deanery understand that even if there are no reports in school, that does not mean it is not happening, it may be the case that children are just not reporting it.
All staff will be vigilant to what they hear, are told and see and will report all concerns, disclosures or incidents to the DSL.
Staff will challenge any inappropriate behaviour between peers, they will not downplay or dismiss behaviours as 'just banter', 'just having a laugh', 'part of growing up' or '*boys being boys*'. All Staff will develop and model the ethos and culture of our school's zero tolerance of this type of behaviour and will support and encourage children to come forward and report any issues or concerns they have.
All staff will be trained to recognise signs and symptoms which may signal a child is at risk from sexual harassment or sexual violence and all other types of child-on-child abuse.

Sexual violence can include:

- Rape
- Assault by penetration
- Sexual Assault

Sexual harassment can include:

- Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance, calling someone sexualised names
- Sexual jokes or taunting
- Physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes and displaying pictures, photos or drawings of a sexual nature
- Inappropriate/unwanted touching
- Consensual and non-consensual making or sharing of nude and semi-nude images, videos and/or livestreams (also known as sexting or youth produced sexual imagery), inclusive of those generated by AI.
- Misogyny/misandry
- Up-skirting

Child on child sexual abuse can also include:

- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- Initiation/hazing - refers to the practice of rituals, challenges, and other activities involving harassment, abuse or humiliation used as a way of initiating a person into a group

Responding to concerns about child-on-child sexual abuse

Mandatory duty to report child sexual abuse - anyone undertaking regulated activity with children must now report child sexual abuse when it is directly reported by a child or perpetrator or witnessed personally, under the Crime and Policing Act 2026.

Step 1

- Immediate consideration should be given as to how best to support and protect the victim and the alleged perpetrator(s) (and any other children involved/impacted upon).

Step 2

- **Record** the incident using the school's safeguarding recording procedures and **report** to the DSL / deputy in line with safeguarding and child protection procedures, as soon as possible. Is information about the incident first hand or do other individuals need to be spoken to, to confirm?

Step 3
The DSL will consider the following:

1. The wishes of the victim in terms of how they want to proceed. Victims should be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and support will be offered. This will however need to be balanced with the school's duty and responsibilities to protect other children. A victim should never be given the impression that they are creating a problem, nor should they be made to feel ashamed for making a report. It will be explained that the law is in place to protect children/young people rather than criminalise them.
2. Has a criminal offence been committed? If yes, contact the police (See also **'When to call the Police'** (NPCC).
3. Ages of students / developmental stage.
4. Whether there is a power imbalance between the children.
5. Whether the alleged incident is a one-off incident or there is a sustained pattern.

6. Any on-going risks to the victim, other children, or staff.
7. Other related issues and the wider context, including whether there is evidence of the victim/s being exploited, criminally and/or sexually.

   To support our judgements about sexualised behaviours we refer to the Hackett Continuum and/or 'Brook Sexual Behaviours Traffic Light Tool'.

Step 4

- If there is no evidence to suggest that a criminal offence has taken place the DSL will consider next steps, in discussion with parents/carers unless to do so would increase the risk to the students involved.
- If there is evidence to suggest that a criminal offence has taken place the DSL will follow the guidance in Part 5 of KCSIE. Any report to the police will be in parallel with a referral to children's social care.

This will typically involve:

1. Considering support, including targeted Family Help for both the victim and perpetrator (does the perpetrator have unmet needs?)
2. Making a referral to children's social care if the victim has been harmed, or is at risk of harm.
3. Making a referral to children's social care if the perpetrator is at risk of harm / being harmed (under-lying welfare and safety concerns which may have triggered behaviours).
4. Writing a risk assessment for students, who have been identified as being at increased risk of child-on-child abuse (considered for both the student perpetrating the abuse and the student who is the victim) to include protection and support.
5. Considering targeted education about healthy relations for the perpetrator and any additional sanctions under the school's behaviour policy.

Additional guidance for responding to consensual and non-consensual images of nudes and semi-nude images, videos and/or livestreams, inclusive of those generated by AI.

Step 1

- Report to your DSL immediately.
- **Never** view, copy, print, share, store or save the imagery yourself, or ask a child to share or download – **this is illegal**.
- If you have already viewed the imagery by accident (e.g., if a young person has showed it to you before you could ask them not to), report this to the DSL (or equivalent) and seek support.
- **Do not** delete the imagery or ask the young person to delete it.
- **Do not** ask the child/children or young person(s) who are involved in the incident to disclose information regarding the imagery. This is the responsibility of the DSL (or equivalent).
- **Do not** share information about the incident with other members of staff, the young person(s) it involves or their, or other, parents and/or carers.
- **Do not** say or do anything to blame or shame any young people involved.
- **Do** explain to them that you need to report it and reassure them that they will receive support and help from the DSL (or equivalent).

Taken from UKCIS guidance

Step 2

- The DSL will hold an initial review meeting with appropriate staff. This may include the staff member who was initially made aware of the incident/concern and the leadership team.

The following risk factors will be considered:

- Significant age difference between the sender/receiver involved
- If staff recognise the student as more vulnerable than is usual (i.e., at risk)
- If the image is of a severe or extreme nature
- If the situation is not isolated and the image has been more widely distributed
- If this is not the first time the student has been involved in a sexting act
- If any other knowledge of either the sender/recipient may add cause for concern (i.e., difficult home circumstances)

Step 3

- A referral will be made to children's social care and/or the police immediately if there is a concern that a child or young person has been harmed or is at risk of immediate harm at any point in the process.

Step 4

- Interviews will take place with those involved.

Step 5

- Parents/carers should be informed at an early stage and involved in the process in order to best support the child or young person, unless there is good reason to believe that involving them would put the child or young person at risk.

Step 6

- Safeguarding records will be updated using the school's safeguarding recording procedures, including actions taken / not taken and the justification for these decisions (linked to the points above).

2.2 Sexual Abuse (perpetrated by an adult or adults)

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. Children can be sexually abused within the family, an institution or a community setting, and are more likely to know their abuser than not. '*Working Together to Safeguard Children'.*

Signs and indicators of sexual abuse

- Physical signs e.g., bruising, pain or soreness in the genital area
- Being afraid /avoiding a particular person
- Being withdrawn
- Self-harming

- Episodes of going missing
- Eating disorders
- Displaying sexualised behaviour or having sexual knowledge that's inappropriate for their age and stage of development.

Grooming is a process that involves the perpetrator building a trusted relationship with the child or children. Children can be groomed by a stranger or someone they know, for example a family member (intra-familial sexual abuse), friend or professional (extra-familial sexual abuse). Grooming techniques can be used to prepare a child for sexual abuse and exploitation (see also section below) grooming can also be used to radicalise a child – (see also section below)

Responding to concerns of sexual abuse

Mandatory duty to report child sexual abuse - anyone undertaking regulated activity with children must now report child sexual abuse when it is directly reported by a child or perpetrator or witnessed personally, under the Crime and Policing Act 2026.

Step 1

- Immediate consideration should be given as to how best to support and protect the victim (and any other children impacted upon, including siblings)

Step 2

- **Record** the incident using the school's safeguarding recording procedures and **report** to the DSL / deputy in line with safeguarding and child protection procedures, as soon as possible.

The DSL will make a referral to Children's social care.

2.3 Exploitation

See also Part 1 and Annex A KCSIE and the County Lines toolkit

Both child criminal exploitation (CCE) and child sexual exploitation (CSE) are forms of abuse that occur where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into taking part in criminal or sexual activity. It may involve an exchange of something the victim needs or wants, and /or for financial advantage or increased status of the perpetrator or facilitator and /or through violence or threat of violence. This can be committed or facilitated via an organised network or gang and the victim may identify as being part of this group. Victims are not always recognised and can be criminalised for actions they take under coercion.

CCE and CSE can affect both boys and girls and can involve children who have been moved or trafficked for the purpose of exploitation. This may constitute modern slavery.

The following can be indicators of CCE:

- Unexplained gifts or new possessions
- Children who associate with other young people involved in exploitation
- Changes in emotional well-being
- Misuse of drugs and alcohol

- Periods of time missing or regularly coming home late
- Children who regularly miss school or education or do not take part in education
- Carrying knives or weapons for a sense of protection from harm from others

CCE can include children being forced to shoplift or pickpocket, forced to threaten other young people, forced to work in cannabis factories, being coerced into moving drugs or money around the local area or across counties (County Lines).

Risk factors which increase the likelihood of involvement in serious violence, include:
- Being male
- Having been frequently absent or permanently from school
- Having experienced child maltreatment
- Involvement in offending such as theft

Responding to concerns that a pupil might be being exploited
Our safeguarding procedures will be followed here, and a referral made to social care as appropriate (including support, if applicable, for the pupil who is deemed to be 'perpetrating' the abuse.) Where there are concerns that a child may be a victim of modern slavery, a modern slavery referral will be made via the national referral mechanism.

See also section above on child on child abuse and 'When To call the Police' (NPCC)

2.4 Serious Violence

See also Part 1 and Annex A KCSIE

Serious violence may involve physical assault, carrying, threatening with or using weapons, often in the context of peer conflict or bullying and criminal exploitation.

Staff play a key role in protecting children from violence, safeguarding victims, as well as those who may be at risk of, or are involved in committing violence. Recognising the signs early can result in preventing pupils from becoming involved with serious crime.

The following is a list of indicators which may signal that a child is at risk from or involved in committing serious violence:
- increased absence from school;
- a change in friendships or relationships with older individuals or groups;
- a significant decline in educational performance;
- signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries;
- unexplained gifts or new possessions

Risks are higher for children with disrupted education (e.g. suspensions, permanent exclusions, time in alternative provision) or a history of offending.

Responding to concerns that a pupil might be at risk of or involved with serious crime

See also 'When To Call the Police'

Where there are concerns that a child could be at risk of involvement with serious violence, the school will work with the child, their family, and relevant agencies to identify and provide appropriate support. This might include access to trusted adults, social and emotional skills

support, and, where available, targeted interventions such as mentoring, therapeutic support, early help services, youth outreach programmes, or referrals to specialist services. The school will take a child-centred approach, focusing on reducing risk, building protective factors, and promoting positive outcomes.
Where concerns arise about involvement with serious violence, the school will refer to the local threshold guidance and make a referral to Children's Social Care accordingly.

The DSL will assess risk to the individual and to others in the school and put in place a safety and support plan. This plan should include actions to de-escalate conflict between peers, where applicable.

2.5 Honour-based abuse, including Female Genital Mutilation

See also Annex A KCSIE and https://www.gov.uk/guidance/forced-marriage
and multi-agency statutory guidance on Forced Marriage

Honour-based abuse encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM), forced marriage and practices such as breast-ironing.

Responding to concerns about honour-based abuse
Abuse committed in the context of preserving honour often involves a wider network of family or community pressure and can involve multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what action to take.

Our safeguarding procedures will be followed here and staff should speak to a member of the safeguarding team immediately if they suspect a child or young person is at risk of honour-based abuse. Safeguarding teams will contact children's social care/ adults social care for anyone 18 or above and local protocols will be followed.

Female Genital Mutilation (FGM)
See Annex A, Multi-agency statutory guidance on FGM and FGM factsheet

FGM is a procedure where the female genital organs are injured or changed and there is no medical reason for this. This practice is often referred to as 'cutting'.
It is frequently a very traumatic and violent act for the victim and can cause harm in many ways.
The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother; and/or death.

Key points

- FGM is illegal in the UK. It is also illegal to take a British National or permanent resident abroad to undergo FGM or help someone who is trying to arrange to have FGM performed.
- FGM is an unacceptable practice for which there is no justification. It is child abuse and a form of violence against women and girls.
- FGM is prevalent in 30 countries. These are concentrated in countries around the Atlantic coast to the Horn of Africa, in areas of the Middle East, and in some countries in Asia.
- FGM is a deeply embedded social norm, practised by families for a variety of complex reasons. It is often thought to be essential for a girl to become a proper woman, and to be marriageable. This practice is not required by any religion.

Risk Factors

The most significant factor to consider when deciding whether a girl or woman may be at risk of FGM is whether her family has a history of practising FGM.
In addition, it is important to consider whether FGM is known to be practised in her community or country of origin. It is important not to make assumptions that all girls from these communities are at risk.
A parent may request permission for their child to travel overseas for an extended period. This is sometimes requested leading into or out of a school holiday (often the summer break).

Responding to concerns about Female Genital Mutilation

If a girl has disclosed to you that she has been subjected to FGM or you have visual evidence of this, you must report it to the police.
(Teachers are required to report known cases of FGM in girls under 18 to the police under the mandatory reporting duty October 2015)

If a direct disclosure has not been made and there is no visual evidence, but you have concerns that the student may have been subject to or at risk of FGM the school's normal safeguarding procedures will be followed here.
This includes reporting your concerns to a member of the safeguarding team and putting your concerns in writing.

The DSL will follow the steps below to respond appropriately to the concern and safeguard the student:

Step 1
- Consider the information of concern. This may mean referring back to check whether there is any previous information of concern for the student.

Step 2
- Check whether there are any risk factors present for the student / family

Step 3
- Where it is deemed appropriate to do so, speak to the parent or carer about FGM. Be sensitive to language differences.

Step 4
- At this stage consideration should be given to make a referral to Children's Social Care. It is useful to have any safeguarding / child protection records to hand. Following a telephone referral, you will be required to submit a written referral within 24 hours.

2.6 Preventing Radicalisation

See also Annex A KCSIE , The Prevent Duty Guidance and 'The Prevent Duty: an introduction for those with safeguarding responsibilities

The Home Office Prevent Duty guidance defines radicalisation as 'the process of legitimising support for, or use of terrorist violence.' An individuals' susceptibility to radicalisation may be

linked to their vulnerability. An individual can be vulnerable if they need special care, support or protection because of age, disability, or risk of abuse and/or neglect.

The following can be indicators of risk:

- showing sympathy for extremist causes
- glorifying violence, especially to other faiths or cultures
- making remarks or comments about being at extremist events or rallies outside school
- evidence of possessing illegal or extremist literature
- advocating messages similar to illegal organisations or other extremist groups
- out of character changes in dress, behaviour and peer relationships
- secretive behaviour
- online searches or sharing extremist messages or social profiles
- intolerance of difference, including faith, culture, gender, race or sexuality
- work or writing that displays extremist themes
- attempts to impose extremist views or practices on others
- advocating violence towards others

As a school, we recognise that we have an important part to play in educating children about extremism and recognising when pupils start to become radicalised. In our school the designated lead responsible for the delivery of Prevent is Naomi Luckman – DSL. The designated lead works in line with the statutory requirements laid out in the Prevent Duty guidance.

A school Prevent risk assessment is in place and is reviewed at least annually by the designated lead. This assesses how pupils and staff may be at risk of being radicalised into terrorism, including online. Where specific risks are identified an action plan is developed to mitigate the risk.

We ensure that through our school vision, values, rules, curriculum and teaching:

- we limit exposure to radicalising narratives, both online and offline, including our work in line with the Filtering and Monitoring Standards.
- we promote tolerance and respect for all cultures, faiths and lifestyles.
- the governing body also ensures that this ethos is reflected and implemented effectively in school policy and practice.
- Students who attend our school have the right to learn in safety. We do not tolerate bullying of any kind and will challenge derogatory language and behaviour towards others.
- visitors who are invited to speak to pupils will be informed about our ethos and safeguarding procedures and relevant vetting checks are undertaken. We undertake due diligence to ensure that visiting speakers are appropriate. Speakers will be supervised at all times and will not be allowed to speak to children without a member of staff being present.
- Staff and governors complete regular Prevent awareness training. Annual safeguarding updates also include information about Prevent. Members of the safeguarding team complete additional training in line with the Prevent guidance recommendation every two years.

Responding to concerns that a pupil might be at risk of radicalisation

As a school we recognise that we have an important part to play in educating children about extremism and recognising when students start to become radicalised.

We ensure that through our school vision, values, rules, curriculum and teaching:

- We promote tolerance and respect for all cultures, faiths and lifestyles.
- The governing body also ensures that this ethos is reflected and implemented effectively in school policy and practice.
- Students who attend our school have the right to learn in safety. We do not tolerate bullying of any kind and will challenge derogatory language and behaviour towards others.
- Visitors who are invited to speak to students will be informed about our ethos and safeguarding procedures and relevant vetting checks are undertaken. We undertake due diligence to ensure that visiting speakers are appropriate. Speakers will be supervised at all times and will not be allowed to speak to children without a member of staff being present.

As with other safeguarding risks, staff will be alert to changes in children's behaviour which could indicate that they may be in need of help or protection.

Staff will identify children who might be at risk of radicalisation and act proportionately which may include our DSL making a referral using the agreed local Prevent referral procedures. All referrals will be made to Preventreferrals@wiltshire.police.uk by our DSL where it will be reviewed, there may be a need for a multi-agency Channel panel where information from partners is reviewed and the referral considered, level of vulnerability agreed and consider what support may be needed. Abbey Park's DSL will provide information and attend Channel Panels where they are requested to do so.

The Deanery's DSL/DDSL will also consider whether it is appropriate to share information with any new education setting in advance of the child leaving our school. This is to ensure the new setting are able to continue supporting the child through the Channel programme.

Channel is a multi-agency approach to provide support to individuals who are susceptible to being drawn into terrorist related activity.

Prevent referral process

- Concern identified and discussed with safeguarding or Prevent lead
- Concern referred to local Prevent team Preventreferrals@wiltshire.police.uk
- Police gather information, assess risk and whether the individual is suitable for Channel. (if there are safeguarding concerns but no relevance to counter terrorism, they will be referred to MASH)
- Channel panel meets to assess risk and determine whether an individual is adopted into Channel. If adopted, panel will seek consent to engage and develop a support programme based on the individual's needs.

Each local authority has a panel and it aims to:
• Establish an effective multi-agency referral and intervention process to identify vulnerable individuals;
• Safeguard individuals who might be susceptible to being radicalised, so that they are not at risk of being drawn into terrorist-related activity; and
• Provide early intervention to protect and divert people away from the risks they face and reduce vulnerability.

Referrals to Channel require the individual's consent.

The DfE helpline can be contacted for advice 020 7340 7264 (this should not be used in cases of emergency)
or via the e mail counter.extremism@education.gsi.gov.uk

2.7 Domestic Abuse

See Part 1 and Annex A KCSIE

'Abusive behaviour' is defined in the Domestic Abuse Act (2021) as any of the following:

- physical or sexual abuse
- violent or threatening behaviour
- controlling or coercive behaviour
- economic abuse
- psychological, emotional or other abuse

For the definition to apply, both parties must be aged 16 or over and 'personally connected'.

It can encompass a wide range of behaviours and may be a single incident or a pattern of behaviours. The impact of domestic abuse on children and young people is detrimental and long term and can affect their health, well-being and ability to learn. Children and young people may see, hear or experience the effects of abuse.

Responding to concerns that a student might be subject to or witnessing domestic abuse

Our safeguarding procedures will be followed here, and a referral made to social care as appropriate.

Domestic Abuse is communicated via Encompass reports from the Police to the school. This information is uploaded to our safeguarding and child protection monitoring system (CPOMS).

2.8 Neglect

Keeping Children Safe in Education defines neglect as:

'The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse'. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- protect a child from physical and emotional harm or danger;
- ensure adequate supervision (including the use of inadequate care-givers); or
- ensure access to appropriate medical care or treatment.
- Provide suitable education

It may also include neglect of, or unresponsiveness to, a 'child's basic emotional needs.'

The following can be indicators of risk:

The following is a summary of some of the indicators that may suggest a child is at risk of or being neglected:

Physical indicators of neglect
 Constant hunger and stealing food
 Poor personal hygiene - unkempt, dirty or smelly
 Underweight
 Dress unsuitable for weather
 Poor state of clothing
 Illness or injury untreated

Behavioural indicators of neglect
 Constant tiredness
 Frequent absence from school or lateness
 Missing medical appointments
 Isolated among peers
 Frequently unsupervised
 Stealing or scavenging, especially food
 Destructive tendencies

https://safeguardingpartnership.swindon.gov.uk/downloads/file/691/neglect_screening_tool

2.9 Students at greater risk of harm

2.9.1 Students with disabilities, special educational needs (SEN) or certain health conditions

As a school, we recognise that students who have disabilities, SEN or certain health conditions can face additional safeguarding and child protection challenges.
These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the student's disability, SEN or health condition/s without further exploration
- students can be disproportionately impacted upon by things like bullying, without outwardly showing any signs
- communication barriers and difficulties in overcoming these barriers
- risk that they do not understand that what is happening to them is abuse;
- the need for intimate care;
- that these children are more likely to be dependent on adults for care.

2.9.2 Students who need a social worker (including Children in Need, Children on a Child Protection Plan and Children Looked After)

Children may need a social worker due to safeguarding or welfare needs. They may need this help due to abuse, neglect and complex family circumstances. A child's experience of trauma and adversity can leave them vulnerable to further harm, as well as educationally disadvantaged, facing barriers to:

- attendance
- learning
- behaviour
- mental health

As a school we ensure that all staff working directly with children/young people have a knowledge and understanding of the impact of adversity and trauma on children's mental and physical health, development and life chances. We understand that children can communicate an unmet need through their behaviour, whether this is challenging and disruptive or quiet and withdrawn. Our school behaviour policy reflects this and includes the ways in which we respond in these situations.

Teaching staff are supported by the members of the safeguarding team to maintain high aspirations for these children, identifying the challenges these children may face and making adjustments to teaching and learning to best support them.

The designated teacher for looked after children and previously looked after children is **Ms Naomi Luckman.** The school staff work with multi-agency professionals, including the Local Authority Virtual Schools Head, to ensure that prompt action is taken when necessary to safeguard these children. We recognise these children are a particularly vulnerable group.

Appropriate staff are provided with information in relation to their legal status and contact arrangements, as well as information about the child's care arrangements.

2.9.3 Students who are in a kinship care arrangement

Students who are under a kinship care arrangement are those being raised by a friend or family member, who is not their parent – often due to circumstances such as parental illness, bereavement, or challenges that make it unsafe for them to remain at home. These students may experience a sense of instability, loss, or confusion as they adjust to new family dynamics and routines. As a school, we a recommitted to recognising the unique needs and vulnerabilities of children under kinship care, understanding their experiences may impact their wellbeing, behaviour, and engagement with learning. Staff are encouraged to provide additional emotional support, work closely with carers and external agencies, including the Virtual School Head and ensure that kinship care students have the guidance and encouragements needed to thrive, both academically and personally. By fostering an inclusive and nurturing environment, we aim to help every child in kinship care feel secure, valued, and supported on their educational journey.

2.9.4 Students who are lesbian, gay, bi-sexual or transgender (LGBT+) and children who are questioning their gender.

As a school we recognise that whilst being LGBT+ or gender questioning is not in itself an inherent risk factor for harm, children who are LGBT+ can be targeted by other children. This can also be the case for children who are perceived by other children to be LGBT+ or gender questioning. Our staff recognise the importance of all children and young people having a trusted adult in school they can talk to and we endeavour to support all students to identify at least one trusted adult in school they can share concerns with if they don't feel safe.
See below section 2.15 for further guidance on children who are questioning their gender.

2.9.5 Students with mental health issues

See also Part 1 and Annex A of KCSIE

All staff should be aware that mental health concerns can, in some cases, develop into safeguarding concerns. This could include self-harm, suicidal ideation or risk of suicide. They could also be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Education staff, however, are well placed to observe children day-to-day and identify worrying behaviours. These could include:

- significant changes in behaviour;
- ongoing difficulty sleeping;
- withdrawing from social situations;
- not wanting to do things they usually like;
- physical signs of self-harm or neglecting themselves

Regular safeguarding training ensures that staff are aware of how these children's experiences can impact on their mental health.

As a school, we try to promote good mental health, offering advice on how to stay healthy in all aspects of life. Regular tutor activities and PSHE lessons give students time to look at different strategies to improve their wellbeing and mental health, including breathing and grounding techniques, mindfulness and journaling.

We also offer to one-to-one school-based counselling sessions, including small intervention groups, one to one support from the Pastoral Team, referrals to BE U Swindon, and support from Child and Adolescent Mental Health services (CAMHs) You will also find signposts to other services for support on our website.

Self-harm
Students who have self-harmed or feeling of wanting to self-harm, have risk assessments and plans in place, specific to their individual needs. They may also have support in school in the form of 1:1 mentoring, the school counsellor, and support from CAMHS (Child and Adolescent Mental Health services), BU Swindon or external counselling.

If staff have a concern about a child's mental health, they should follow the procedures set out in Part 1 of this document and report to the DSL. If staff feel that a child is in immediate danger, they should call 999 or arrange for them to be taken to A&E immediately by a parent/carer or other suitable person; this will be supported through the Pastoral teams.

If child needs help urgently for their mental health but it is not an emergency, staff can get help from NHS 111 online or call 111 and select the mental health option.

2.10 Behaviour

See also the school's student behaviour policy.

As a school we recognise that there can be links between safeguarding and child protection concerns and incidents of disruptive and challenging behaviour. We understand that children can communicate an unmet need through their behaviour, whether this is challenging and disruptive or quiet and withdrawn. Our school behaviour policy reflects this and includes the ways in which we respond in these situations.

Restrictive intervention, including the use of reasonable force

Where restrictive intervention is required to keep a pupil safe the school will respond in line with the DFE guidance; Restrictive interventions, including the use of reasonable force in schools April 2026

Restrictive interventions (including the use of reasonable force and seclusion) are used only when necessary to prevent harm and always in ways that uphold dignity, safety, rights and equality.

When considering whether to intervene we will ask three questions:

- Is it necessary?
- Is it proportionate?
- Has the pupil's welfare been considered?

All members of school staff have a legal power to use reasonable force in certain circumstances. To prevent or stop a student from:

1. causing injury to themselves or others
2. committing a criminal offence
3. damaging property
4. causing disorder among pupils at the school, whether during a teaching session or otherwise

Incidents of physical restraint must:

- Always be used as a last resort
- Be applied using the minimum amount of force and for the minimum amount of time possible
- Be used in a way that maintains the safety and dignity of all concerned
- Never be used as a form of punishment
- Be recorded and reported to parents

The school's procedures follow the guidelines within the document – *Restrictive intervention, including the use of reasonable force in schools*, guidance April 2026.

Staff will prioritise non-physical strategies, including: calm, non-confrontational communication, the use of time/space and movement, distraction/redirecting, offering choices and adjustments to environment/routine, removing an audience, supportive adult presence, sensory/regulation strategies and planned withdrawal.

All significant incidents of restrictive intervention are recorded on CPOMS and reported to parents/carers. Where a student has safeguarding /child protection records in place, information about incidents of positive handling will be cross-referenced.

Following all incidents where restrictive intervention is required, we routinely check the well-being of the student after the incident. This includes asking if they have been hurt and how they feel.

If information suggests that a student has been hurt during an incident of physical intervention, the Headteacher will be informed and contact will be made with the LADO.

Where students require regular handling and intervention, a positive handling plan will be put in place. The student, together with the parents/carers will be involved in this process.

2.11 Attendance

See also 'Working Together To Improve Attendance'
See also the local authority's guidance on 'Children Missing Education'

As a school we recognise the importance of students attending school regularly. Where students are persistently absent from school, this could be a possible indicator of neglect, abuse or exploitation.

Any unexplained absence is followed up on the first day of absence. Where possible, we hold more than one emergency contact telephone number for each student/family.

Student attendance is monitored by tutors, Heads of Year and the Attendance Officer. We recognise that children with poor attendance or missing from education may be more vulnerable and potentially are exposed to higher degrees of risk. Attendance information is therefore considered within the wider remit of safeguarding and child protection. Staff are aware that episodes of unexplained absence could indicate safeguarding concerns or the need for early help support.

Attendance procedures during partial school closure/lockdowns
Attendance is recorded on Arbor and there are safeguards in place if there is no response from students following an attempt to contact. This includes home visits and informing social care if this student is an open case.

2.12 Students who are educated off site

See also DfE 'Alternative Provision' guidance

Where students are attending off-site alternative provision, it is our responsibility to ensure that they continue to be kept safe. Quality assurance of any provision used by our academy is completed prior to the placement of a student. This includes:

- review of the provision's safeguarding and child protection procedures
- a visit to the site.
- a letter of assurance to confirm that all staff working at the alternative provision have had the appropriate recruitment checks
- information about issues which the student attending the site might be at risk of, to inform an effective risk assessment

For each day that the student attends the off-site provision, contact is made by a member of the pastoral team to ensure they have arrived safely. This process also applies where a student has been excluded from the academy, including fixed term exclusions. Contact will be made with a parent or carer to confirm their safety on each day of the exclusion.

When a child who is on role at The Deanery CE Academy is attending an alternative provision, half-termly visits will be undertaken by a member of school staff to see that child to ensure the safety and suitability of the provision.

Where possible, we will always look to use an alternative provision that are approved by Swindon Borough Council.
If a safeguarding concern arises for a child within their Alternative Provision, the school will look to immediately review or end the placement.

2.13 Elective Home Education

Where a parent/carer has expressed an intention to remove their child from school with a view to educating at home, we will endeavour to co-ordinate a meeting with the parents (and professionals as appropriate, including an LA representative) to ensure parents/carers have considered what is in the student's best interests.

This is particularly important where a child has special educational needs or a disability, and/or has a social worker, and/or is otherwise vulnerable. Where a child is subject to a child protection plan or has an Education, Health and Care plan this will need to be reviewed with the local authority, working closely with parents and carers.

In accordance with the School Attendance (Pupil Registration) (England) Regulations 2024 we will notify the Local Authority when a pupil's name is deleted from the admission register. Safeguarding concerns will be shared appropriately and where required, a request for additional support from children's services will be made in line with the Children Act 1989.

2.14 Intimate Care

See also staff code of conduct

Intimate care includes any tasks that involve the dressing and undressing, washing including intimate parts, helping someone use the toilet, changing nappies or carrying out a procedure that requires direct or indirect contact to an intimate personal area.
Staff administering intimate care are required to record this using the agreed protocols laid out in our intimate care policy.

2.15 Students with medical conditions and needs, including students with allergies

See also Supporting pupils at school with medical conditions DfE guidance and the school's policy on supporting pupils with medical needs

Students are supported at school with medical conditions and needs, including allergies to enable them to have full access to education, including school trips and physical education.

The school has an allergy safety policy, which is reviewed annually and published on our website. We work in line with this and with 'Allergy safety In Schools', the DfE statutory guidance.

The school works with healthcare professionals, parents/carers and students to establish individual healthcare plans, including allergy action plans and/or asthma plans, as necessary and these are reviewed regularly.
Any member of staff providing support to a student with medical needs, including an allergy, should have received suitable training. Staff training includes information about symptoms and treatments for allergies and anaphylaxis. Staff must not give prescription medicines or administer healthcare procedures without appropriate training.
Medicines should only be administered at school when it would be detrimental to a child's health or school attendance not to do so. *See the school's policy on supporting pupils with medical needs for further details about administering and storing medicines.*

2.16 Children who are questioning their gender

See Part 2 of KCSIE for further detail.

We follow the guidance set out in Part 2 of 'Keeping Children Safe in Education' for circumstances where a child or parent has raised a request relating to social transition. Staff must not **initiate** any action in this area. Staff should not adopt any changes relating to

social transition unless a decision has been made by the school and a child's parents or carers have been involved.
Records are kept of all decision-making involved in cases where a child or parent has raised a request relating to social transition.

As a school, we are particularly conscious of pupils who may have transitioned at an early age and maybe living in stealth. We endeavour to make sure that all relevant staff are aware of a child's biological sex.

Where a child asks for support with social transition, we will:

- engage parents/carers as a priority and give their views considerable weight, except in the rare circumstances where doing so would place the child at greater risk – in which case the DSL will determine what action is needed to safeguard the child before parents/carers are contacted;
- take a careful approach, recognising that social transition is an active intervention that may have significant effects on a child's wellbeing and longer-term outcomes, and that primary-aged children in particular are very unlikely to be supported in a full social transition;
- consider what is in the best interests of the child and of other children, drawing on clinical and non-clinical professional advice (for example from the SENCo) where relevant, and taking into account any wider health issues or neurodiversity;
- document the decision-making process and keep records, including where a request is not agreed to ensure that toilets, changing rooms, and boarding/residential accommodation designated for one biological sex are not made available to a child of the other biological sex, including as a form of social transition;
- comply with the setting's duties under the Equality Act 2010 and the Human Rights Act 1998, considering whether any policy would place a gender-questioning child at a disadvantage relative to other children, and linking this consideration to the setting's wider inclusion and equality processes (see section 3, Equalities Statement, of this policy).

Sport and single-sex provision

KCSIE 2026 sets out that schools, further education institutions and 16-19 academies (covered by Part 6 of the Equality Act 2010) may separate children by biological sex for single-sex sport and competitive activity where physical strength, stamina or physique would otherwise create a safety or fairness disadvantage. Some sports may need to be single-sex from a certain age for safety reasons, in which case there must be no exceptions. Requests relating to how a child participates will be considered against the guidance on 'considering requests for support with social transition', taking into account the best interests of the child, the impact on other children, and the aim of creating a safe and fair environment (KCSIE 2026, paras 95-98).

2.17 Children who are young carers

As a school we are alert to the needs of children who are young carers, recognising that caring responsibilities can impact on their attendance, attainment, behaviour and well-being.

The school recognises the valuable role that young carers play and is committed to ensuring they receive the support they need to thrive. Support may include regular check-ins with the Young Carers Lead, access to a safe space and trusted adults, flexibility around deadlines and school routines where appropriate, emotional wellbeing support, assistance with communication between home and school, and signposting to external Young Carers

services and support networks. Our aim is to minimise the impact of caring responsibilities on a pupil's education, wellbeing and opportunities.

Part 3 – Safeguarding Policy

3.1 How is the information in this set of policy and procedures disseminated?

1. Our staff induction programme includes a safeguarding section and new staff are asked to read the safeguarding policy and procedures. This also applies to our Academy Council members and Trustees.
2. Visitors, volunteers and external staff, including supply teachers, who visit our school are asked to read a visitors' code of conduct, which includes procedures for what to do if they have concerns about the safety of a student or concerns about the actions of an adult working/volunteering with children.
3. Our safeguarding policy and procedures are re-visited on an annual basis and time is set aside for staff to re-read the document. In order to check staff understanding of the content, there are regular quiz checks on the content and updates, calendared CPD for all staff and refresher summaries of topics on every weekly Briefing agenda to all staff.

In addition to reading and understanding the school's safeguarding and child protection policy and procedures, staff are required to read:

- Keeping Children Safe In Education

  See appendix 6 for guidance about reading of KCSIE
- the school's staff code of conduct
- the student behaviour policy
- the safeguarding response for children missing in education (included within our attendance policy)
- the school's online safety policy and acceptable use agreement
- *'What To Do If You're Worried A Child Is Being Abused'*

Staff are asked to sign to confirm their understanding and accept responsibility for following up any questions or queries they have arising from reading this document (with a member of our safeguarding team). This is taken during each training session and securely stored in the Designated Safeguarding Lead's office.

3.2 How do we ensure parents and carers understand the school's role in safeguarding students?

1. This school is committed to helping parents/carers understand its responsibility for the welfare of all students and our duty of care. The policy and procedures are available to parents and carers via the school website.
2. The school website also provides access to a number of useful resources for parents and carers. These can be found in the 'Safeguarding' tab of the school's website.
3. During student induction meetings for parents and carers, information will also be discussed about the school's safeguarding responsibilities.

3.3 Roles and Responsibilities

- The Trust Interim Board have strategic leadership responsibility for safeguarding arrangements, ensuring that policies, procedures and training are effective and comply with the law (Part 2 KCSIE).
- The Headteacher has a duty to ensure that the policies and procedures adopted by the governing body and proprietor are understood and followed by all staff.
- The Designated Safeguarding Lead (and Deputy DSL/s in the DSL's absence) works in line with Annex B of KCSIE and is a senior member of staff, from the leadership team. This role carries a significant level of responsibility. *See KCSIE for further detail.*
- Staff have a duty to respond to safeguarding and child protection concerns in line with the procedures laid out in this policy and in the statutory guidance – 'Keeping Children Safe In Education' 2026.
- **'All staff have a duty to do what is reasonable in all circumstances to safeguard and promote the welfare of students and staff.'** (Teachers' Standards)

The Trust Interim Board, Trust proprietors, the Headteacher and the safeguarding team work together to ensure they facilitate a whole school approach to safeguarding. This means ensuring safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development.

They take positive action, where it can be shown that it is proportionate, to deal with disadvantages affecting students with certain protected characteristics in order to meet their specific need. For example, taking positive action to support girls if there was evidence, they were being disproportionately subjected to sexual violence or sexual harassment. This includes making reasonable adjustments for disabled children and young people and those identified as having special educational needs.

Where there is a safeguarding concern, the Trust Interim Board, proprietors and the leadership team should strive to ensure that the child's wishes and feelings are taken into account when determining what action to take and which services to provide.

The school fulfils its statutory duty to complete the local authority section 175 audit on an annual basis, enabling the local authority to ensure it is meeting statutory requirements.

In addition to the local authority audit, we complete a quality assurance review of safeguarding with an independent consultant, to ensure our safeguarding practice is robust and meets statutory requirements.

Where weaknesses or areas for development are identified, the Trust Interim Board monitors the implementation and impact of identified actions to address these issues. The Headteacher provides a safeguarding report each term as part of the Headteacher's report to the Trust Interim Board.

3.4 Safeguarding Supervision

All staff working in this school have a responsibility to safeguard the children in their care. Staff can only achieve this effectively if they:
• are clear about what is expected of them
• have the skills, knowledge, behaviours, values and attitudes to carry out their role
• are fully supported in their role and managed effectively

Safeguarding supervision is available for any member of staff as required. There is a weekly drop-in session every week available for all staff internally.
Members of the safeguarding team receive planned safeguarding supervision from an external coach and this takes place termly.

Regular, planned safeguarding supervision is vital to ensure that there are opportunities for reflection and analysis of information as part of the decision-making process. Constructive challenge is encouraged, especially where assumptions are made and differences are resolved in a restorative and respectful way.

3.5 Use of school premises

See also 'After-school clubs, community activities and tuition: safeguarding guidance for providers

Where external organisations use the school premises, both within the school day and outside of school hours, the Governing Body has a responsibility to:

* seek assurance that the body concerned has appropriate policies and procedures in place in regard to safeguarding students
* ensure that the appropriate level of safer recruitment checks have been completed on staff working for the organisation

*ensure visitors who speak with students are informed about our ethos and safeguarding procedures. We undertake due diligence to ensure that visiting speakers are appropriate.

3.6 Safer Recruitment Procedures

See Part 3 KCSIE

This school works in line with Part 3 of Keeping Children Safe in Education

Employed staff

The following checks are completed:

- An enhanced DBS check, which includes barred list information, is required for any individual who will be engaging in regulated activity.

  Regulated Activity – 'A person will be engaging in regulated activity if as a result of their work or volunteering they will be responsible, on a frequent basis (more than 3 days in a 30-day period) in a school or college, for teaching, training, instructing, caring for or supervising children, providing advice or guidance on physical, emotional or educational well-being, or driving a vehicle for children only. A person will also be in regulated activity if they engage in intimate or personal care or healthcare or any overnight activity, even if it only happens once.' KCSIE

  The original DBS certificate will be requested from the individual for checking. We do not keep copies of DBS certificates on file. Where there is a break in service of 12 weeks or more a new DBS check will be required, together with a barred list check if the individual is working in regulated activity.
- Identity checks are completed, together with proof of right to work in the UK
- Qualifications are checked

- If an individual has lived or worked outside of the UK an overseas police check / certificate of good conduct may be required *(see part 3 KCSIE)*
- Right to work checks are completed on all staff.

In addition, staff who have a teaching role will be checked, via the DfE Secure Access Website, for

- qualified teacher status
- prohibition check
- section 128 check (for any individual who has a managerial role, including Heads of Department, Governors and Trustees in academies
- completion of induction
- teacher not subject to a conditional offer/suspension
- An online search is completed for all short-listed candidates who apply to work in our school. A basic check is completed to identify any publicly available information of concern which:
  - could pose a safeguarding risk to children /young people
  - cause damage the reputation of the school

  Where information of concern is identified, this will be discussed with the candidate before a decision is made about suitability for the role being advertised. A record is made of the check and any subsequent actions required, along with the outcome.

Visitors and externally employed staff

Where staff from external organisations are working with our students, we ensure that the letter of assurance received confirms that the relevant checks are in place, including a barred list check if the individual is working in regulated activity. See above for definition of regulated activity. Visitors are asked to provide proof of identity and if required, DBS information.

Where an individual is self-employed, the school should request to see the DBS certificate and where possible, registration on the update service. The school can also complete a DBS check (and barred list check if working in regulated activity) on behalf of the individual.

Students, aged 16 or over, on work experience placements in schools may require enhanced DBS and barred list checks if they are in regulated activity.

Visitors with a verified DBS will be given a green lanyard, those visitors without a DBS will be given a red lanyard and will be escorted around the school at all times by a member of staff.

Volunteers

Where an individual meets the period condition (more than 3 days in any 30-day period) by volunteering at one school or multiple schools/settings, an enhanced DBS and check of the barred list will be required. Volunteers may also choose to join the update service (free for volunteers). A ‘recruitment’ process is in place for these roles, which includes completion of an application form and an informal interview.

Where an individual is not deemed to be regular' ie does not meet the period condition, for example helping as a 'one-off' on a school trip, the school will put a risk assessment in place to ensure that volunteers are not left unsupervised with children or are working in regulated activity.

Single Central Record

The school maintains an up-to-date single central record of all safer recruitment checks. This is in line with the requirements as set out in Part 3 of Keeping Children Safe In Education. The Headteacher monitors this record each term and ensures it is in line with statutory requirements.

Induction of new staff

Following appointment, the school offers new staff a programme of safeguarding and child protection induction. This includes: a face-to-face training session with the DSL covering all statutory elements, CPOMS demonstration and key documents to read inclusive of:

- Part 1 of Keeping Children Safe in Education
- the academy's Safeguarding and Child Protection policy and related policies
- the academy's staff Code of Conduct
- the student Behaviour policy
- the role of the Designated Safeguarding Lead and deputy/deputies

Staff are asked to sign to confirm their understanding and accept responsibility for following up any questions or queries they have arising from reading this document (with a member of our safeguarding team).

3.7 Online Safety

See our school's Online Safety Policy
See also KCSIE
See also 'Teaching Online Safety In Schools' (non-statutory guidance)
See also Cyber security standards for schools and colleges
See also Generative AI: product safety explanations

Technology is a significant component in many safeguarding and well-being issues. Children are at risk of abuse online as well as face to face. In many cases abuse will take place concurrently via online channels and in daily life.

Children can abuse their peers online, this can take the form of abusive, harassing and misogynistic messages, the consensual and non-consensual sharing of indecent images and the sharing of abusive images and pornography, to those who do not want to receive such content.

Artificial intelligence (AI) is increasingly featuring within educational environments, offering both transformative opportunities and novel challenges. While AI tools can support personalised learning, streamline administrative tasks, and foster creativity, they also require careful consideration regarding data privacy, ethical use, and potential biases. Integrating AI safely and thoughtfully into the school environment forms part of our commitment to preparing pupils for a digital future, while safeguarding their wellbeing and rights.
Staff should also be aware that images or videos of a sexual nature generated using AI are treated in the same way as other nudes and semi-nudes for safeguarding purposes.

Responding to online safety concerns

Staff will follow our safeguarding procedures as outlined in Part 1 of this document. Staff should also be aware of the additional guidance in Part 2 under 'child on child abuse, where additional guidance is provided, in relation to responding to concerns about the making and sharing of indecent images via mobile devices.

What are the school's responsibilities around online safety?

This school recognises:

- the increasing role technology has to play in education and children's daily lives
- the wide-range of content which is available to children via the internet
- that alongside the benefits of technology, there are also risks
- the importance of delivering a broad and relevant online safety curriculum which provides progression across year groups
- that delivery of this curriculum must be provided via regular lessons, which take place throughout each term
- the importance of keeping up to date with the tools, apps and devices children are using so that the curriculum which is offered is meaningful
- that online safety must be reflected in all relevant school policies
- its responsibility to work in line with the Filtering and Monitoring standards and takes all reasonable action, to limit children and young people's exposure to the risks from the school's IT system.

What our online safety curriculum offers

- Our online safety curriculum covers four aspects of risk – content, contact, conduct and commerce *(see KCSIE for definitions)*
- Key online safety messages (such as Childnet's SMART rules) which are reinforced at every opportunity across the curriculum, in assemblies, PSHE lessons
- Students are taught in all lessons to be critically aware of the materials and content they access on-line and understand that not everything they see online is true
- Students are supported in building resilience to radicalisation. A safe environment is provided for debating controversial issues and helping them to understand how they can influence and participate in decision-making.

Filtering and monitoring

See also:
Part 2 KCSIE for further information
Our Online safety policy

As part of the work we do to provide students with a safe environment in which to learn, we ensure that we have appropriate filtering and monitoring systems in place. Harmful and inappropriate content is blocked without unreasonably impacting on teaching and learning.

We work collaboratively to keep students safe in the online world.

The school uses Impero to filter and monitor key words and sites deemed to be inappropriate. Impero stores the screenshots of such key words and sites and this is reviewed regularly to ascertain its effectiveness.

- The Trust Interim Board members have responsibility for ensuring the school has appropriate filtering and monitoring systems in place, taking into account the age of students and those who are potentially at greater risk of harm.

Senior Leaders, including the DSL have an awareness and understanding of the systems in place. This includes ensuring there is an annual review of filtering and monitoring systems and implementing checks into the annual Planner and Section 175 audit. Checks are completed termly to ensure that filtering is working appropriately on all internet connected devices, in all locations around the school and site. A record is maintained of these checks.

- Staff have an awareness of provisions in place and know how to respond when concerns are identified. Staff are provided with online safety training, at induction and at regular intervals.
- Within four key areas of risk (Content, Contact, Conduct and Commerce), students are taught about the steps they should take if they identify illegal, inappropriate or harmful content online.

Use of mobile phones

Staff work in line with statutory guidance on Mobile Phones In Schools.
Our school is a mobile phone-free environment, pupils do not have access to their mobile phones throughout the school day, including during lessons, the time between lessons, breaktime and lunchtime. We implement a 'see it, hear it, use it, loose it policy.

Use of technology during partial school closure/lockdowns.

This school recognises:

- the increasing role technology has to play in education and children's daily lives
- the wide-range of content which is available to children via the internet
- that alongside the benefits of technology, there are also risks

For those who are not physically attending school during partial school closure, we recognise that these students will be spending increased time online, either participating in school work, taking part in live streaming of lessons and/or as part of extended 'free-time'.

We recognise that this will pose increased risk to children, including:

- Grooming
- Exploitation, both criminal and sexual
- Radicalisation
- Child on child abuse, including cyber-bullying
- Sexual harassment

All staff who interact with students/students, including remote interactions, will continue to be vigilant and look out for signs that a child's safety and welfare might be at risk. Further guidance to keep students/students and staff safe when working remotely can be found in Safer Working Practice

In addition, students are sign-posted to age-appropriate practical support should they have worries or concerns whilst online. Links to support are available via our school website and include:

UK Safer Internet Centre Hotline

Child Exploitation and Online Protection Centre

3.8 Whistle-blowing

This school expects the highest standards of conduct from all employees and governors and will treat seriously any concern raised about illegal or improper conduct. The law provides protection for employees who raise legitimate concerns about specified matters. These are called ‘qualifying disclosures. A qualifying disclosure is one made in the public interest by the employee who has a reasonable belief that:

• a criminal offence
• a miscarriage of justice
• an act creating risk to health and safety
• an act causing damage to the environment
• a breach of any legal obligation
• a concealment of any of the above

is being, has been, or is likely to be, committed. It is not necessary for the employee to have proof that such an act is being, has been, or is likely to be committed, a reasonable belief is sufficient. The employee has no responsibility for investigating the matter; it is the school’s responsibility to ensure that an investigation takes place.

Staff and volunteers are encouraged to raise concerns about poor or unsafe practice and potential failings in the school's safeguarding regime via:

- the staff handbook
- the staff code of conduct
- the visitor's/volunteer's code of conduct

In the first instance, unless the employee reasonably believes their Headteacher to be involved in the wrongdoing, any concerns should be raised with the employee’s Headteacher. If he/she believes the Headteacher to be involved, then the employee should proceed straight to the CEO of TPAT. This would normally be the Chair of Governors. Where a member of staff feels unable to raise a concern with either of the individuals identified above the NSPCC whistle-blowing
helpline is available to them.

3.9 Training for adults working/volunteering in our school

We are committed to ensuring staff and volunteers know and understand:

- the signs and symptoms of abuse;
- how to identify students who may benefit from early help;
- their responsibility for referring concerns to the designated safeguarding lead/deputy;
- the procedures for reporting safeguarding /child protection concerns about adults working with children (allegations)
- the criteria for referral to Family Help and referral to Children’s Social Care for assessment for statutory services, including Child in Need and Child Protection.

Staff training

The following training is provided at induction and subsequently on a regular basis, throughout the academic year in CPD to all staff:

- Safeguarding and child protection training

- Online safety training
- Prevent training

Governing members and Trustees are provided with strategic safeguarding training at induction and as subsequent updates. This training includes a focus on the safeguarding roles and responsibilities of all governing members and equips them to provide strategic challenge to test and assure themselves that safeguarding policies and procedures are effective.

Governors also complete Prevent awareness training as part of their induction and refresh this on a regular basis.

The school requires regular volunteers, including Governors to have completed Online level 1 safeguarding training and a signed copy to say that they have read and understood, KSCIE, the Staff code of conduct, Behaviour policy and the Safeguarding policy.

Updates

In addition to formal training, all staff receive regular opportunities to update their knowledge and understanding, and ensure they are all aware of new and emerging threats.

These updates include a focus on:

- Sexual abuse
- Child on Child abuse, including sexual violence and harassment
- Early Help
- Trauma and Adversity
- Honour-based abuse, including Female Genital Mutilation
- Radicalisation and the Prevent Duty
- Exploitation, including child criminal and child sexual exploitation
- Child mental health
- Parent mental health
- Domestic abuse
- Online safety, including Filtering and Monitoring
- Forced marriage and honour-based violence
- Child-trafficking and modern-day slavery
- Children missing education and children absent from education
- Serious violence

These are delivered through weekly Briefings, calendared CPD and whole staff Inset sessions.

Additional training for Designated Safeguarding Leads and deputy DSLs

The statutory requirement for DSLs and deputy DSLs is to renew training every 2 years. We work in line with this requirement. Our deputy DSLs has completed advanced training to the same level as the DSL, in line with the requirements of our Local Authority.

In addition, the members of our safeguarding team complete:

- FGM training
- Additional Prevent training in line with statutory requirements (2 years)

- Mental Health first aid
- CSE, Young people and learning disabilities
- Radicalisation training
- Supporting pupils with self-harm and eating disorders
- Responding to emotional abuse training
- SCR training
- Online safety training
- Encompass Key Adult trained – Naomi Luckman
- Advanced certificate in safeguarding for DSL
- Team Teach
- Fire safety in school
- School behaviour training
- Understanding county lines
- Link between mental health and safeguarding
- Adverse Childhood Experiences (ACES) Taking a trauma informed approach to improve outcomes
- Understanding and applying safeguarding threshold training
- Understanding Sexual Violence and Sexual Harassment

3.10 Record-keeping

Safeguarding records, including records relating to staff and the SCR, are kept in accordance with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR), which place duties on organisations and individuals to process personal information fairly and lawfully and to keep the information they hold safe and secure. See ICO guidance 'For Organisations' which includes information about your obligations and how to comply, including protecting personal information and providing access to official information.

3.11 Site Safety

Ensuring the safety of everyone on site is a fundamental priority. The school implements robust site security measures, including secure perimeter controls, monitored access points, visitor management procedures, and regular risk assessments. In line with the principles outlined in Martyn's Law (Terrorism Act 2025), we are committed to strengthening our preparedness and response to potential threats, including terrorism. Staff receive appropriate training to identify suspicious behaviours and respond to emergencies, and we regularly review procedures to ensure best practice. These proactive steps help to create a secure environment where students, staff and visitors can feel safe and supported at all times.

Toilets

As a school we follow the guidance set out in Part 2 of KCSIE. We do not allow pupils into toilets designated for the opposite sex. We provide separate toilets for boys and girls (apart from where individual toilets are in a room which can be locked from the inside, intended for use by one pupil at a time). If a gender-questioning pupil does not want to use the toilet designated for their biological sex, we will consider whether we can provide an alternative facility, without compromising the provision of single-sex facilities.

Appendix 1

This policy and set of procedures work in line with the following legislation, statutory guidance and non- statutory guidance:

Legislation

- Section 175 Education Act 2002 - Maintained schools and FE colleges including sixth forms
- The Education and Training (Welfare of Children) Act 2021
- The Equality Act 2010 – *see Equality Act 2010: Advice For Schools*
- The Human Rights Act 1998
- The Children Act 1989 (and 2004 amendment)
- The Female Genital Mutilation Act 2003
- The Rehabilitation of Offenders Act 1974
- Schedule 4 of the Safeguarding Vulnerable Groups Act 2006 (defining regulated activity)
- Childcare Act 2006
- Data Protection Act 2018
- Data (Use and Access) Act 2025
- the UK GDPR Act
- the Children's Wellbeing and Schools Act 2026
- the Crime and Policing Act 2026

Statutory Guidance

- Keeping Children Safe In Education
- Working Together To Safeguard Children
- Children's Social Care National Framework
- Working Together To Improve Attendance
- The Prevent Duty Guidance
- Multi-agency statutory guidance on Female Genital Mutilation
- Relationships Education, Relationships and Sex Education and Health Education
- Filtering and Monitoring Standards for schools and colleges
- Cyber security standards for schools and colleges
- Supporting pupils at school with medical conditions
- The Childcare Regulations 2018

- Data Protection In Schools
- Alternative Provision
- Mobile phones in Schools
- Restrictive Interventions, including use of reasonable force

Non-statutory Guidance

- What To Do If You're Worried A Child Is Being Abused
- The Prevent duty: an introduction for those with safeguarding responsibilities
- Information-sharing: advice for safeguarding practitioners
- Children Missing Education
- Teaching Online Safety In School
- Safer Working Practice Guidance For Adults Working With Children and Young People
- Behaviour and Discipline in Schools
- Mental health and Behaviour In Schools
- Searching, screening and confiscation
- Generative AI: product safety explanations
- Protected security and preparedness for education settings
- Site security guidance
- Out of school settings: safeguarding guidance for providers
- National standards for non-school alternative provision

In addition, the school takes into account:

- Regional guidance
- the procedures and practice of the local authority

Linked policies

The safeguarding policy and procedures should be read in conjunction with the following school/Trust policies:

- Staff code of conduct
- Attendance policy
- Behaviour policy
- Anti-bullying policy
- Online Safety policy
- RSHE policy
- Safer Recruitment policy

Appendix 2 – Definitions of Abuse (taken from Working Together to Safeguard Children)

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its side effects. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children. Children may also cause harm to other family members, often referred to as child to parent or care giver abuse.

All our staff will be made aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another. For children with Special Educational Needs and Disabilities (SEND) and those with relevant health conditions additional barriers can exist when identifying abuse and neglect, these include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- being more prone to peer group isolation than other children;
- the potential for children with SEN and disabilities being disproportionally impacted by behaviours such as bullying, without outwardly showing any signs;
- possible communication barriers and difficulties in overcoming these barriers.

Physical Abuse
A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.
Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Neglect

The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- protect a child from physical and emotional harm or danger;
- ensure adequate supervision (including the use of inadequate care-givers); or
- ensure access to appropriate medical care or treatment
- provide suitable education

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Emotional Abuse

The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child

that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include verbal abuse, such as persistent criticism, be-littling or name-calling. It may include not giving the child opportunities to express their views, deliberately silencing them or ‘making fun’ of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child’s developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone."

Sexual Abuse

Sexual abuse involves forcing, causing or inciting a child to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, such as acts of penetration, whether that is with part of a person’s body or an object (e.g. rape or assault by penetration), and non-penetrative acts such as masturbation, kissing, rubbing, and touching over clothing. Sexual abuse may also include noncontact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online as well as offline, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. Children can be sexually abused within the family, an institution or a community setting, and are more likely to know their abuser than not. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college’s policy and procedures for dealing with it. There are specific offences for children under 13, who can never provide valid consent to sexual activity and there are specific offences which make clear that sexual activity with a child under 16 is an offence, regardless of whether they agreed to that activity.

Appendix 3
Safeguarding and Child Protection
Concern / Incident Form
CONFIDENTIAL

Date:		**Name and role of person completing form**	
Time:		**Date and time read by DSL / Deputy DSL**	
Name of student:		**DOB:**	
Location (if applicable)			
What have I seen/heard/noticed which concerns me?			
What am I worried about? **Is this concern linked to any previous concerns I have reported?**			
Action I have taken			
To be completed by a member of the safeguarding team			

Include reference here to other members of the safeguarding team you may have discussed the case with **Discussion of next steps agreed with:** **Record of discussion with another professional, external to the school (giving full name/ role and agency)**
Detail of decision / action agreed by DSL or deputy: **Has the local authority threshold guidance been referred to at this point? Yes / No** **Has the person who reported the initial concern been provided with feedback? Yes / No**
Reason(s) for this decision or action by DSL or deputy: *Does the student need to be monitored? Yes/No* *If yes, when will the case be reviewed?* *Is Early Help support appropriate? Yes / No* *<u>Reason for decision</u>* *Is a referral to children's social care required? Yes/No* *Does the school have evidence that the threshold for significant harm has been met? (child protection) Yes/No* *Reason for decision*

Tick to confirm added to student's chronology and copy placed on file	

Safeguarding and Child Protection Concern/Incident form

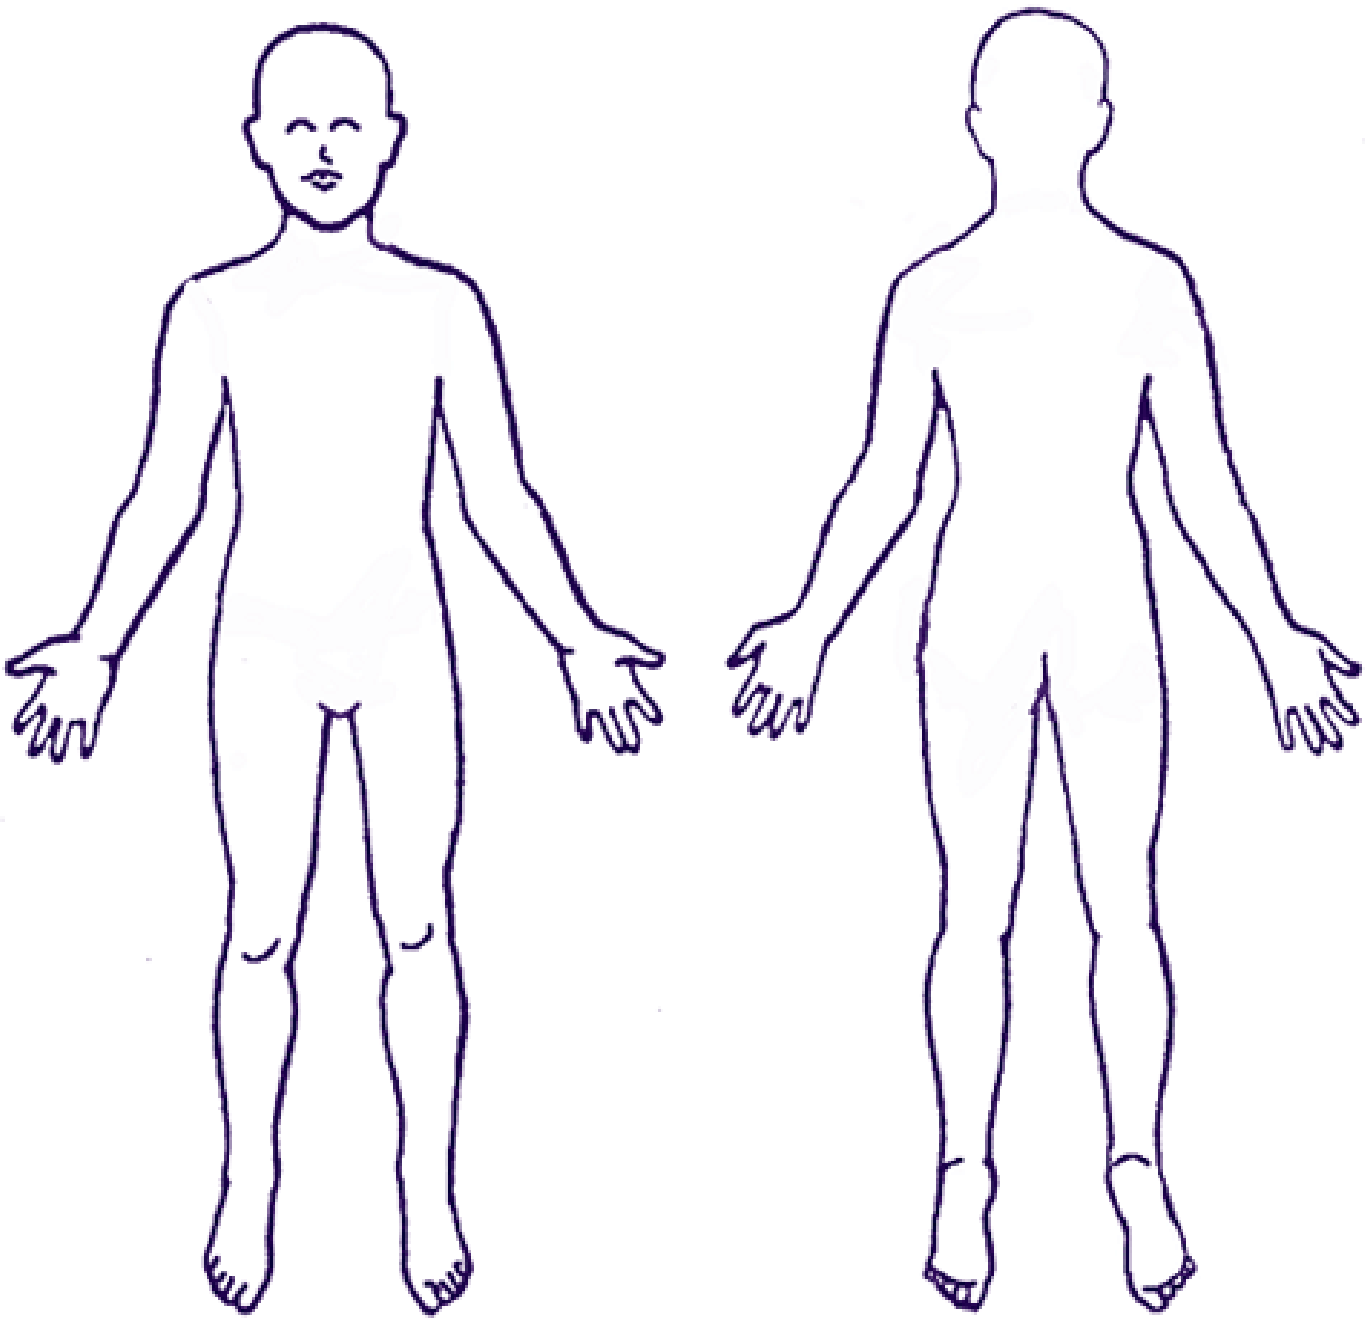
Student name:	Year and Tutor group:
Where:	Key stages group:
	When?
Date:	Time:
Staff member:	Role:

Incident or concern:

- What have I seen/heard/noticed that concerns me?
- What am I worried about?
- Action I have taken:

Student signature: …….

Staff member signature: ……..



This form must be completed every time an injury is noted on a child, by shading and dating the injured area on the body map. Any possible child protection or safeguarding concerns must be:

- Reported immediately by the person noting the concern.
- Record the facts and do not make judgements. Record dates, times, places, actual words, what was observed, who was present and questions asked on CPOMS.

Appendix 4
Prompt sheet

Safeguarding and Child Protection
Prompt sheet

This form is intended to be used, alongside the concern/incident form, to support staff with the recording of safeguarding and child protection concerns/incidents.

Have you remembered to include:

1. **What is it that you have seen/heard/noticed which concerns you?** Remember if you have noticed a mark on the student, it is really important to complete an attached body map, giving an indication of the shape, size and location of the mark.

   Has the child communicated that something is wrong? Verbally? Change in behaviour?

2. **Clear and factual information about what you have seen/heard/noticed?** If you have included your opinion in your report, have you made it clear that this is your opinion?

3. **Full names of those involved and where possible, reference to staff roles?**

4. **Why what you have seen/heard/noticed concerns you?** What are worried will happen if this concern/incident is not responded to?

5. **Any actions you have already taken?**

6. **Whether you have spoken to parents/carers about the concern/incident?** Remember, you may need to seek advice from a member of the safeguarding team if you are unsure about whether speaking to the parent may increase the risk to the student. If the parent is the alleged perpetrator, you must always seek advice from the safeguarding team before speaking to the parent/carer.

Appendix 5 -
Low Level Concerns / Allegations Record
Adult working or volunteering with children/young people
CONFIDENTIAL

Name of adult at centre of concern/allegation		**Role**	
Name of person completing form		**Role**	
Date of concern/allegation		**Date record made**	
Name of child /children involved if applicable:			
Has concern/allegation arisen during the adult's time on school site or outside of school?			
Details of the concern/ allegation			
Is the adult aware of the concern/allegation?			
Action taken by person(s) completing the form:			
Who has the concern/allegation been shared with? DSL / Headteacher/Chair of Interim Board:			

To be completed by the Headteacher/ Chair of Interim Board:
Does the information provided suggest that the adult has: • behaved in a way that has harmed a child, or may have harmed a child; • possibly committed a criminal offence against or relating to a child; • behaved towards a child or children in a way that indicates that he/she may pose a risk of harm to children • behaved or may have behaved in a way that indicates they may not be suitable to work with children.
• **has the LADO been contacted? Yes/No** If yes has a local authority referral form been completed and submitted? • **has advice been taken from any other professionals? Yes / No** *Include details of professionals spoken to*
Details of decisions and actions taken *Include here details of* • *strategy discussion* • *allegations management meeting* • *no involvement by LADO – low level concern to be dealt with internally* • *disciplinary procedures* • *no further action*
Include here any safeguards which have been put in place in response to the report *Include here details of* • *additional adult supervision implemented* • *risk assessment required* • *additional staff training required* • *duties away from children* • *suspension during investigation*
If a child or children has been involved, have parents/carers been informed? **Yes / No** **If Yes, what action would they like to see?**
Outcome If it is agreed that the LADO needs to conduct an investigation, has the school been informed of the final outcome at the end of the process? **Substantiated/ Malicious/ False/ Unsubstantiated/ Unfounded**

Appendix 6

Safeguarding Reading List – Sept 2026

'Keeping Children Safe in Education' requires staff to read the following documents:

Document title
1. The school's safeguarding and child protection policy and procedures
2. Part 1 of Keeping Children Safe In Education
3. Annex A Keeping Children Safe In Education
4. Annex B Keeping Children Safe In Education – the role of the Designated Safeguarding Lead and deputy/deputies I am clear who the DSL and deputy/deputies are in my school
5. Staff code of conduct/staff behaviour policy
6. Acceptable use policy (for use of technology and devices)
7. The safeguarding response for children missing in education (from the school's attendance policy)
8. The school's student/student behaviour policy and procedures

Additional roles and required reading

Head teachers, Principals and DSLs	• Working Together To Safeguard Children • KCSIE – whole document
Staff with a lead for behaviour	• Part 1 and Part 5 of KCSIE • Annex B (in addition to annexes listed on page 1)
Staff involved in recruitment	• Part 1 KCSIE • Part 3
HR staff	• Part 1 KCSIE • Part 3 • Part 4
Staff who have responsibility for IT and online safety	• Part 1 KCSIE • Part 2

Appendix 7
Identifying support for students during partial school closure/lockdowns

The school's safeguarding team and senior leaders review all students on the school's safeguarding and child protection overview.
A risk assessment is completed to identify a graduated offer of support for these students and any additional students whose welfare and safety may be at risk as a result of the partial closure of school, but who may previously not have been on the school's safeguarding overview.

Arrangements to support vulnerable students

Vulnerable children include children who are supported by social care, those with safeguarding and welfare needs, including child in need plans, on child protection plans, 'looked after' children, young carers, disabled children and those with education, health and care (EHC) plans, although many students/students on EHCPs can remain safely at home.

Arrangements will be made for these students to continue attending school. **We also have the flexibility to offer a place in school for any student who we believe to be on the edge of receiving children's social care support.**

Support for these students includes:

- Regular communication with and agreed support from lead professional/social worker/Virtual Headteacher
- Continued involvement with Children's Services and other external professionals as part of review cycle e.g., Child protection conference involvement and core group reviews. These will take place in line with local safeguarding partners' advice.
- Sign-posting respite available for families with children who have special educational needs and disabilities

Where students who are deemed vulnerable are not attending school, the following safeguards have been put in place to support, in addition to the points above:

- Doorstep safe and well checks weekly or before 10 days
- Lead professional/social worker/Virtual Headteacher made aware of non-attendance at school and additional support from these professionals agreed
- Telephone contact daily
- System in place for students to alert safeguarding team if at risk
- Links to support available made available on school website
- Safety plan written with parents/carers to support students during time at home

Arrangements to support students we are concerned about but who do not meet the 'vulnerable' definition

In addition to those students identified as vulnerable, we are aware of the following groups who may be at increased risk during this time.

<u>Students who are living in households where there is domestic abuse</u>

Support includes:

- Telephone contact daily

- Links to support available on school website, including contact numbers for National Domestic Abuse Helpline
- Ensuring victims are aware of the Government advice that they are able to leave their house to seek refuge if their safety is at risk
- Regular review to monitor whether risk is increasing by student remaining at home and provision of school place if required

Students who have mental health issues, including anxiety and depression

Support includes:

- Teacher/tutor contact with students to check on well-being via school email systems or virtual learning environments. Staff aware of safeguarding procedures to follow if they have concerns about a student welfare
- Support from the school's pastoral team (Year Leads)
- Links to support available on school website, including Young Minds and Childline
- Regular review to monitor whether risk is increasing by student remaining at home and provision of school place if required

Students who are at risk of child-on-child abuse, including cyber-bullying

Support includes:

- Teacher/tutor contact with students to check on well-being via school email systems or virtual learning environments. Staff aware of safeguarding procedures to follow if they have concerns about a student welfare
- System in place for students to alert safeguarding team if at risk – communication in pairs
- Safety plan written with parents/carers to support students during time at home
- Links to support available on school website, including resources for parents to access to keep their children safe online e.g. Kidscape
- Regular review to monitor whether risk is increasing by student remaining at home and provision of school place if required

Students who are at risk of being left at home unsupervised

- Clear communication with parents/carers about the importance of keeping their children safe whilst they are at home, including appropriate supervision, both in the 'real world' and online
- System in place for students to alert safeguarding team if at risk – communication in pairs
- Regular review to monitor whether risk is increasing by student remaining at home and provision of school place if required
- Other groups who are deemed vulnerable and not able to access sufficient food (FSM) will have appropriate support (food vouchers/baskets)

Appendix 8 - Individual Student Risk Assessment

Student	
Date of birth	
Class/Year group	
Date risk assessment written	
Date for review	
Who has been involved in the writing of the assessment? (Including child/parents/carers)	
Professionals who need to be aware of the assessment (including school staff and multi-agency professionals)	
Consent given by parents/carers	**Signature** **Date**

Provide a brief overview below of events leading up to a risk assessment being considered	
What category/categories of harm does this involve?	Physical/Emotional/Sexual/Neglect
What behaviours are displayed? What are the outward signs?	
Does the risk of harm include:	Risk to the child themselves Risk to peers Risk to staff
Possible triggers?	

Are there are times of the day when the risk is increased?	*Include detail here*
What additional support /supervision is in place to mitigate at these times?	*Include details about which staff are involved in supervision*
Are there are areas of the school/grounds where risk is increased?	*Include detail here*
What additional support /supervision is in place to mitigate in these areas?	
How will risk be managed off site? E.g. school trips, alternative provision	
Has the child been spoken to about their behaviours?	
What sensory / physical difficulties, medical issues (including medication), communication difficulties, need to be taken into account? Are there any issues such as previous abuse, family dynamics, psychological problems that may impact upon the child's level of impulsiveness, perception of danger, emotional response, etc?	
What are the factors that contribute to the level of risk? For example, environmental cues, frustration, confusion, peer dynamics, level of demand. Please indicate factors that pose a risk in both the short and long term.	

Any additional information	

How will this assessment be monitored?	
Has the Brook tool been referred to as part of this assessment?	Yes / No
Who has responsibility for monitoring?	

This document was last reviewed and updated on 12th September 2026.

The next scheduled review of this document is 1st September 2027.

Ratified by The Trust Interim Board – scheduled for October 2026.
